## 1 - GENERAL INFORMATION

Rentas Eléctricas III Limitada was formed as a limited liability company by public deed on June 6, 2006. According to public deed dated May 9, 2007, the Company acquired 100 shares owned by Transelec Holdings Rentas Limitada, corresponding to 0.01% of the share capital of Transelec S.A. (formerly Nueva Transelec S.A.), leaving the Company with 100% ownership. Thus, the merger took place by absorption, and the assets, liabilities, rights and obligations of Transelec S.A. (formerly Nueva Transelec S.A.) passed to the Company. In this way, the Company directly assumed operation of the electricity transmission business previously conducted by the aforementioned subsidiary.

On March 26, 2007, it changed its name to Rentas Eléctricas III S.A. and became a corporation and June 30, 2007, Rentas Eléctricas III S.A. changed its name to its current name, Transelec S.A. (here and after "the Company" or "Transelec").

On May 16, 2007, the Company was listed under number 974 in the Securities Registry of the Chilean Superintendence of Securities and Insurance (SVS) and is subject to the supervision of the SVS. Simultaneously, it registered 1,000,000 shares, which corresponds to the total number of shares issued, subscribed and fully paid.

On December 1, 2014, Transelec S.A., merged with its subsidiary Transelec Norte S.A. through an acquisition of 0.01% of the shares of Transelec Norte S.A. owned by Transelec Holdings Rentas Limitada, becoming the owner of the 100% shares.

On September 1, 2015, Transelec S.A merged with its subsidiary Inversiones Electricas Transam Chile Ltda., which on August 1, 2015, had absorbed its subsidiaries: Transmisora Huepil Ltda, Transmisora Abenor Ltda y Transmisora Araucana de Electricidad Ltda. Through the acquisition of the investment complement which completes 100% of the ownership, in the merger processes mentioned above.

On March 31, 2017, Transelec S.A acquired 100% shares of the company Transmisión Del Melado SpA.; thus, taking control of this entity during April 2017. For this reason, Transelec S.A. changes from preparing the individual financial statements as of December 31, 2016, to preparing consolidated financial statements as of June 30, 2017.

The Company is domiciled at Orinoco No. 90, floor 14, Las Condes, Santiago, Chile.

The Company has the exclusive objective of operating and developing electricity systems owned by the Company or by third parties designed to transport or transmit electricity and may, for these purposes, obtain, acquire and use the respective concessions and permits and exercise all of the rights and powers that current legislation confers on electric companies. Its line of business includes: commercializing the transport capacity of lines and transformation capacity of substations and equipment associated with them so that generating plants, both Chilean and foreign, may transmit the electricity they produce to their consumption centers; providing engineering or management consulting services related to the company's line of business; and developing other business and industrial activities to use electricity transmission facilities. The Company may act directly or through subsidiaries or affiliates, both in Chile and abroad.

The Company is controlled directly by Transelec Holdings Rentas Limitada and indirectly by ETC Transmission Holdings S.L.

## 1 - GENERAL INFORMATION (continued)

As of January 16, 2018 the SVS was replaced by the Commission for the Financial Market (CMF).

The Interim Consolidated Financial Statements of the Company for the period ended as of March 31, 2020, were approved by the Board at its meeting N°199 held on May 13, 2020.

## 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

The principal accounting policies applied in preparing the Interim consolidated financial statements are detailed below. These policies have been based on IFRS in effect as of March 31, 2020 and applied uniformly for the periods presented.

### 2.1 Basis of preparation of the Interim consolidated financial statements

These Interim Consolidated Financial Statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB), taking into account the presentation regulations of the SVS, which are not in conflict with IFRS.

These Interim Consolidated Financial Statements have been prepared from the accounting records maintained by the Company. The figures in these Interim Consolidated Financial Statements and their notes are expressed in thousands of Chilean pesos.

In preparing these Interim Consolidated Financial Statements, certain critical accounting estimates have been used to quantify some assets, liabilities, income and expenses. Management was also required to exercise judgment in applying Transelec's accounting policies. Areas involving a greater degree of judgment or complexity or areas in which assumptions and estimates are significant for these consolidated financial statements are described in Note 4.

The information contained in these Interim Consolidated Financial Statements is the responsibility of the Company's management.

The accounting policies adopted in the preparation of the Interim Consolidated Financial Statements are consistent with those applied in the preparation of the annual individual financial statements of the Company for the year ended December 31, 2019, except for the adoption of new standards and interpretations in effect as of January 1, 2020, which did not materially affect the Interim consolidated financial statements.

The Company made reclassifications to its financial statements regarding balances as of December 31, 2019. However, these reclassifications do not have a significant effect due to they were made only for comparative purposes.

For the convenience of the reader, the financial statements and their accompanying notes have been translated from Spanish to English.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

## 2.2 Basis of Interim Consolidation of the Financial Statements

The Interim consolidated financial statements comprise the financial statements of the Parent Company and its subsidiary, including all its assets, liabilities, revenue, expenses and cash flows after carrying out the amendments and eliminations related to the transactions between the companies that form part of the consolidation.

A subsidiary is a company over which Transelec S.A. exercises control in accordance with IFRS 10. In order to comply with the definition of control according to IFRS 10, three criteria must be complied with, namely: (a) an investor has the power over the relevant activities of the investee, (b) the investor is exposed, or has rights to, variable returns from the share in the investee, (c) the investor has the ability to use its power over the investee to exercise influence over the amount of income of the investor. Non-controlling interest represents the amount of net assets and profit or loss that are not property of the Parent Company, which is presented separately in the comprehensive income statement and within equity in the consolidated statement of financial situation.

Acquisition of a subsidiary is recorded in accordance with IFRS 3 “Business Combinations”, using the equity method. This method requires the recognition of identifiable assets (including intangible assets previously unrecognized and goodwill) and liabilities acquired at fair value on the acquisition date. Non-controlling interest is recognized by the portion owned by minority shareholders on the value of recognized assets and liabilities.

The excess of acquisition cost on the fair value of the share of the Company in the acquired identifiable net assets is recognized as goodwill. If the acquisition cost is less than the fair value of the net assets of the acquired subsidiary, the difference is recognized directly in the income statement.

The financial statements of the subsidiary have been prepared on the same date as those of the Parent Company and the accounting policies have been applied uniformly, considering the specific nature of each business unit.

The information regarding the entity in which the Company has control and that forms part of the consolidation is detailed as follows:

| Rut | Subsidiary | Participation Share | | Country of origin | Functional currency |
|---|---|---|---|---|---|
| | | 03-31-2020 | 12-31-2019 | | |
| **76.538.831-7** | Transmisión del Melado SpA | 100% | 100% | Chile | Ch$ |

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)

### 2.3 New standards and interpretations accounting

The following new standards, amendments and interpretations has been adopted in this Interim Consolidated Financial Statements:

| | New standards, amendments and interpretations | Date of obligatory application |
|---|---|---|
| **IAS 1 - IAS 8** | Definition of Material | January 01, 2020 |
| **IFRS 3** | Definition of a Business | January 01, 2020 |
| **Conceptual Framework** | Updating references to the conceptual framework | January 01, 2020 |
| **IFRS 9 - IAS 39 - IFRS 7** | Interest Rate Benchmark Reform | January 01, 2020 |

The standards and interpretations, as well as the improvements and amendments to IFRS, which have been issued but are not yet effective at the date of these interim consolidated financial statements, are detailed below. The Company has not adopted these standards in advance:

| | New Standards | Date of obligatory application |
|---|---|---|
| **IFRS 17** | Insurance Contracts | January 1, 2021 |

#### 2.3.1. New Standards

**IFRS 17 Insurance Policies**

In May 2017, the IASB issued IFRS 17 Insurance Contracts, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, IFRS 17 will replace IFRS 4 Insurance Contracts (IFRS 4) that was issued in 2005. The new standard applies to all types of insurance contracts, regardless of the type of entities that issue them.

IFRS 17 is effective for reporting periods starting on or after January 1, 2021, with comparative figures required. Early application is permitted, provided the entity also applies IFRS 9 and IFRS 15.

The Company is currently evaluating the impact that this new standard could generate.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)

### 2.3.2 Enhancements and Modifications

The enhancements and modifications, which have been issued but are not yet effective at the date of these interim consolidated financial statements, are detailed below:

| | Enhancements and Modifications | Date of obligatory application |
|---|---|---|
| **IAS 1** | Classification of Liabilities as Current or Non-Current | January 1, 2022 |

**Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)**

The amendments provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments affect only the presentation of liabilities in the statement of financial position — not the amount or timing of recognition of any asset, liability income or expenses, or the information that entities disclose about those items. The amendments:

i. clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and align the wording in all affected paragraphs to refer to the "right" to defer settlement by at least twelve months and make explicit that only rights in place "at the end of the reporting period" should affect the classification of a liability;

ii. clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability; and

iii. make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 and are to be applied retrospectively. Earlier application is permitted.

The Company is currently evaluating the impact that this new standard could generate.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

## 2.4 Foreign currency translation

### 2.4.1 Functional and presentation currency

The Company's functional currency is the Chilean peso. These Interim Consolidated Financial Statements are presented in Chilean pesos.

### 2.4.2 Transactions and balances

Transactions carried out by each company in a currency other than its functional currency are recorded using the exchange rates in effect as of the date of each transaction. During the period, any differences that arise between the exchange rate recorded in accounting and the rate prevailing as of the date of collection or payment are recorded as exchange differences in the income statement. Likewise, as of each period end, balances receivable or payable in a currency other than each company's functional currency are converted using the period-end exchange rate. Losses and gains in foreign currency arising from settling these transactions and from converting monetary assets and liabilities denominated in foreign currency using period-end exchange rates are recorded in the income statement, except when they should be deferred in equity, such as the case of cash flow.

### 2.4.3 Exchange rates

As of each year end, assets and liabilities in foreign currency and UF have been converted to Chilean pesos using the following exchange rates:

| Currency | Chilean pesos per unit | |
|---|---|---|
| | March 31, 2020 | December 31, 2019 |
| Unidad de Fomento | 28,597.46 | 28,309.94 |
| US$ | 852.03 | 748.74 |
| Euro | 934.55 | 839.58 |

## 2.5 Financial reporting by operating segments

The Company manages its operations and presents information in the Interim Consolidated Financial Statements based on a single operating segment, Electricity transmission.

The source of the revenues that generates the company and its assets are located in Chile.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

### 2.6 Property, plant and equipment

Property, plant and equipment are valued at acquisition cost, net of its corresponding accumulated depreciation and any impairment losses it may have experienced. In addition to the price paid to acquire each item, the cost also includes, where appropriate, the following items:

a) All costs directly related placing the asset in the location and condition that enables it to be used in the manner intended by management.

b) Borrowing costs incurred during the construction period that are directly attributable to the acquisition, construction or production of qualified assets, which require a substantial period of time before being ready for use are capitalized. The interest rate used is that of the specific financing or, if none exists, the average financing rate of the company carrying out the investment.

c) Future disbursements that Transelec S.A. and its subsidiary must make to close their facilities are incorporated into the value of the asset at present value, recording the corresponding provision. On an annual basis both existences of such obligations as well as estimate of future disbursements are reviewed, increasing or decreasing the value of the asset based on the results of this estimate.

Assets under construction are transferred to operating assets once the testing period has been completed when they are available for use, at which time depreciation begins.

Expansion, modernization and improvement costs that represent an increase in productivity, capacity or efficiency or an extension of useful life are capitalized as a greater cost of the corresponding assets. Replacement or overhauls of whole components that increase the asset's useful life, or its economic capacity, are recorded as an increase in value for the respective assets, derecognizing the replaced or overhauled components. Periodic maintenance, conservation and repair expenses are recorded directly in income as an expense for the period in which they are incurred.

Property, plant and equipment, net of its residual value, is depreciated by distributing the cost of its different components on a straight-line basis over its estimated useful life, which is the period during which the companies expect to use them. The useful lives and residual values of fixed assets are reviewed on a yearly basis. The land has an indefinite useful life and is not depreciated. The following table details the ranges of useful lives periods applied to principal classes of assets and used to determine depreciation expense:

| | Range of estimated useful life | |
|---|---|---|
| | **Minimum** | **Maximum** |
| Buildings and infrastructure | 20 | 50 |
| Machinery and equipment | 15 | 40 |
| Other assets | 3 | 15 |

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

### 2.6 Property, plant and equipment (continued)

The depreciation of these assets is recorded in the Statement of Income under the categories of Cost of Sales and Administrative and Sales Expenses.

### 2.7 Intangible assets

#### 2.7.1 Goodwill

Goodwill represents the excess of acquisition cost on the fair value of net assets acquired in a business combination. Goodwill is not amortized, it is annually tested for impairment, regardless if there is any indication of impairment.

For impairment testing, goodwill acquired in a Business combination is assigned as of the acquisition date to the cash generation units that are expected to benefit from said combination.

During the periods covered by those Interim Consolidated Financial Statements, there were no impairment losses of goodwill.

#### 2.7.2 Rights of way

Rights of way are presented at historical cost. These rights have no defined useful life and, therefore, are not amortized. However, these indefinite useful lives are reviewed during each reporting year to determine if they remain indefinite. These assets are tested for impairment at each year end and if there are indicator of impairment.

#### 2.7.3 Computer software

Purchased software licenses are capitalized based on the costs incurred to purchase them and prepare them for use. These costs are amortized on a straight-line basis over their estimated useful lives that range from three to five years.

Expenses for developing or maintaining computer software are expensed when incurred. Costs directly related to creating unique, identifiable computer software controlled by the Company that is likely to generate economic benefits in excess of its costs during more than one year are recognized as intangible assets, and its amortization is included in the income statement under costs of sales and administrative expenses.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)

### 2.8 Impairment of non-financial assets

Assets with an indefinite useful life, such as land and rights of way, are not amortized and are tested annually for impairment. Amortized assets are tested for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable.

An impairment loss is recognized for the difference between the asset's carrying amount and its recoverable amount.

The recoverable amount is the higher of its fair value less costs to sell and its value in use this being the present value of the expected future cash flows.

The Company has defined its only operating segment the Transmission of Electricity as a Cash Generating Unit (CGU) for the purposes of impairment tests and, therefore, both goodwill and intangible assets with an indefinite useful life existing at the date of the impairment test are completely assigned to this CGU.

The variable to which the value in use model is most sensitive is the discount rate. The main variables considered in the impairment test are:

| Variable | March 2020 | December 2019 | Description |
|---|---|---|---|
| Discount rate | 5.96% | 5.96% | The discount rate used is the weighted average cost of capital (WACC) of the Company, measured before taxes. |
| Growth rate | 3.00% | 3.00% | The growth rate is applied to the perpetuity and is based on the estimation of the long-term inflation expectation established by the Central Bank of Chile. |
| Period of estimation of flows | 5 years | 5 years | The estimation period is 5 years, based on the Company's internal business plan plus perpetuity. |

Impairment losses from continuing operations are recognized in the income statement in the expenses categories in accordance with the function of the impaired assets. In the case of goodwill see Note 2.7.1.

Non-financial assets other than goodwill that suffered an impairment loss are reviewed at each reporting date for possible reversal of the impairment, in which case the reversal may not exceed the amount originally impaired less accumulated depreciation.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

## 2.9 Financial instruments

A financial instrument is any contract that generates, at the same time, a financial asset in an Entity and a financial liability or an equity instrument in other Entity.

**1) Non-derivatives Financial Assets**

The Company classifies its non-derivatives financial assets into the following categories:

a) Amortized Cost:

In this category are classified the financial assets within the Business Model of the Company whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Non-derivatives financial assets that that accomplish with the conditions stated in IFRS 9 to be classified at amortized cost are: account receivables, loans granted and cash equivalents. This assets are recorded at amortized cost which is its initial fair value, minus the payments of principal, plus the non-collected accrued interests calculated according to the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset or to the amortized cost of a financial liability.

b) Fair value through other comprehensive income (Equity):

In this category are classified the financial assets within the Business Model of the Company whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These financial assets are recognized into the Consolidated Financial Statement at its fair value when it can be feasible determined. Changes in its fair value, net of tax effect, are recorded into the Other Comprehensive Income Statement until those financial assets are derecognized which is the moment when the accumulated effect is recycle into the Profit or Loss of the period. If the fair value of the financial assets is lower than the acquisition cost, and if there is objective evidence that the financial assets has an impairment that is not reversible, the difference has to be recorded as a loss of the period.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

**2.9 Financial instruments (continued)**

**1) Non-derivatives Financial Assets (continued)**

c) Fair value through profit or loss

For financial assets that were defined as such at the moment of their initial recognition and those that are not measured at amortized cost or fair value through other comprehensive income.

These financial assets are measured in the Consolidated Financial Statement at its fair value and the changes on its fair value are recorded directly in profit or loss at the moment when they occurred, Purchases or sales of financial assets are recorded at the date of the transaction.

**2) Cash and Cash Equivalent**

Cash and cash equivalents includes cash, bank balances, time deposits and other highly-liquid, short-term investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. The balance of this account does not differ from that presented in the statement of cash flows. There is no restricted cash.

**3) Impairment of financial assets**

According to IFRS 9, the Company the impairment model based of expected credit losses. These model is used on the financial assets measured at amortized cost or fair value through other comprehensive income, except for the investments in equity instruments. The Company uses a simplify scope for account receivables, contractual assets and account receivables for leasing in order to ensure that any impairment recorded is made in reference to the expected losses for all the life of the asset.

**4) Non-derivatives financial liabilities**

Financial liabilities are initially recognized at its fair value. In the case of loans they also include the direct transactions costs. For its subsequent measurement, these liabilities are measured at amortized cost using the effective interest rate method. For the fair value of debt calculation it has been performed using the discounted cash flows method according to the interest rate curves available in the market depending on the payment currency.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

**2.9 Financial instruments (continued)**

**5) Derivatives and Hedge activities**

The Company selectively uses derivative and non-derivative instruments, to manage its exposure to exchange rate risk (See Note 16).

Derivatives instrument used by the Company are mainly related to hedge the interest rate/exchange rate risks. Derivatives instruments are recorded at its fair value at the date of the transaction on the Consolidated Financial Statements. If the fair value of the derivative instrument is positive, it is recorded into the "Other financial assets" item and in case that the fair value of the derivative instrument is negative it is recorded into the "Other financial liabilities" item. Changes in the fair value of the derivative instruments are recorded into profit or loss unless the derivative had been designated as a hedge instrument and comply with all the requirement stated in IFRS 9 in order to use Hedge Accounting. Regarding to hedge accounting, the Company is still under the IAS 39 scope. The different types of hedge accounting that the Company perform are:

5.1) Fair value Hedge: Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statement, along with any change in the fair value of the hedged asset or liability that is attributable to the hedged risk. The Company has not used fair value hedges during the years presented.

5.2) Cash Flow Hedge: Changes in the fair value of the effective portion of derivatives are recorded in equity account "Reserve for cash flow hedges". The cumulative loss or gain in this account is transferred to the income statement to the extent that the underlying item impacts the income statement because of the hedged risk, netting the effect in the same income statement account. Gains or losses from the ineffective portion of the hedge are recorded directly in the income statement. A hedge is considered highly effective when changes in the fair value or the cash flows of the underlying item directly attributable to the hedged risk are offset by changes in the fair value or the cash flows of the hedging instrument, with effectiveness ranging from 80% to 125%.

Hedge accounting is discontinued when the Company revokes the hedging relationship, the hedged item expires or is sold, terminated or exercised, or no longer qualifies for hedge accounting. Any cumulative gain or loss deferred in equity is retained and is recognized when the forecasted transaction is ultimately recognized in the income statement.

5.3) Net Investment Hedge: Hedges of net investments in foreign operations are accounted for on a similar basis to cash flow hedges. Foreign currency translation originated by a net investment in a foreign entity and derived from the hedge transaction should be registered in equity reserve (under “Other reserves” heading) until the investment's disposal.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

**2.9 Financial instruments (continued)**

**5) Derivatives and Hedge activities (continued)**

Gains or losses relating to the ineffective portion are recognized immediately in the income statement in the line item "Other gains (losses)".

The Company does not have any Net Investment Hedge transaction on its records.

At the inception of the transaction, the Company documents the relationship existing between the hedge instruments and the hedged items, as well as its risk management objectives and its strategy for handling various hedge transactions. The Company also documents its assessment, both at inception and subsequently on an ongoing basis, of the effectiveness of the hedge instruments in offsetting movements in the fair values or cash flows of the hedged items. A derivative is presented as a non-current asset or liability if its maturity is greater than 12 months and it is not expected to be realized within 12 months. Other derivatives are presented as current assets or liabilities.

**6) Embedded derivatives**

Derivatives embedded in other financial instruments or other contracts are treated as derivatives when their risks and characteristics are not closely related to the principal contracts and the principal contracts are not measured at fair value through profit and loss. In the case that they are not closely related, they are recorded separately, and any changes in value are recognized in the income statement. In the periods presented in these Interim Consolidated Financial Statements, the Company did not identify any contracts that met the conditions for embedded derivatives.

**7) Derecognition of financial assets and liabilities**

Financial assets are derecognized when, and only when:

a) The contractual rights to the cash flows from the financial asset expire or, the Company retains the contractual rights to receive the cash flows but assumes a contractual obligation to pay those cash flows to one or more entities.

b) The entity transfers substantially all the risks and rewards of ownership of the financial asset, or, if the entity neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, the entity has lose control of the asset.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

**2.9 Financial instruments (continued)**

**8) Compensation of financial assets and liabilities**

The Company compensate financial assets and liabilities, presenting the net amount in its Consolidated Financial Statements, only when:

a) Exist a legal right to compensated both amounts; and

b) Exist the intention of settle the transaction on a net basis, or to collect the asset and pay the liability simultaneously.

These rights can only be legally enforceable during the normal course of the business, or in case insolvency, payment problems or bankruptcy, of any one or all of the parties involved in the transaction.

**2.10 Inventory**

Inventory is valued at acquisition cost using the weighted average price or net realizable value if this is lower.

**2.11 Paid-in capital**

Paid-in capital is represented by one class of ordinary shares with one vote per share. Incremental costs directly attributable to new share issuances are presented in equity as a deduction, net of taxes, from issuance proceeds.

**2.12 Income tax and deferred taxes**

The result for income tax for the year is determined as the sum of the current tax arising from the application of the tax rate on taxable income, after allowed deductions, plus the change in assets and liabilities for deferred tax and tax credits, both for tax losses and other deductions. Differences between the book value and tax base of assets and liabilities generate deferred tax asset and liability balances, which are calculated using tax rates expected to be in effect when the assets and liabilities are realized.

Current taxes and changes in deferred tax assets and liabilities not from business combinations are recorded in income or in equity accounts in the statement of financial position, depending on where the gains or losses originating them were recorded. Deferred tax assets and tax credits are recognized only when it is likely that there are future taxable profits sufficient enough against which the deductible temporary differences and the carry forward of unused tax credit can be utilized.

The carrying amount of deferred income tax assets is reviewed at each reporting date consolidated financial statement and written off to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred income tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

### 2.12 Income tax and deferred taxes (continued)

Deferred tax liabilities are recognized for all temporary differences, except those derived from the initial recognition of goodwill and those that arose from valuing investments in subsidiaries, associates and jointly-controlled companies in which Transelec can control their reversal and where it is likely that they are not reversed in the foreseeable future.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

### 2.13 Employee benefits

#### 2.13.1 Staff severance indemnity

The Company records liabilities for staff severance indemnity obligations based on collective and individual employment contracts, payable when their employees cease to provide services.

This benefit is recorded at nominal value.

The Company records liabilities for severance obligations personnel services for their employees, based on the provisions of the collective and individual staff contracts. If this benefit is contractual, the obligation is treated in the same way as defined benefit plans in accordance with IAS 19 and is recorded using the projected unit credit method.

Defined benefit plans define the amount of the benefit that an employee will receive upon termination of employment, which usually depends on one or more factors such as the employee's age, rotation, years of service and compensation.

The liability recognized in the statement of financial position represents the present value of the defined benefit obligation plus/minus adjustments for unrecorded actuarial gains or losses and past service costs. The present value of the defined benefit obligation is determined by discounting cash outflows estimated using as a reference BCU (rate of Chilean Central Bank bonds denominated in Unidades de Fomento) interest rates for terms similar to the maturity of the staff severance indemnity obligation.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in other comprehensive income.

#### 2.13.2 Profit sharing

The Company recognizes a liability and an expense for profit sharing arrangements based on respective collective and individual contracts with its employees and executives, using a formula that takes into account the net income attributable to the Company's shareholders after certain adjustments. Transelec recognizes a provision when it has a contractual obligation or when a past practice has created a constructive obligation of agreement to IAS 19.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

### 2.14 Provisions

Provisions for environmental restoration, asset retirement, restructuring costs, onerous contracts, lawsuits and other contingencies are recognized when:

- The Company has a present obligation, whether legal or implicit, as a result of past events;
- It is more likely than not that an outflow of resources will be required to settle the obligation;
- The amount can be reliably estimated.

Provisions are measured at the present value of management's best estimate of the expenditures required to settle the obligation. The discount rate used to determine the present value reflects current market assessments, as of the reporting date, of the time value of money, as well as the specific risk related to the particular liability, if appropriate. Increases in provisions due to the passage of time are recognized in interest expense.

As of the date of issuance of these Interim Consolidated Financial Statements, Transelec have no obligation to establish provision for environmental restoration and similar expenses.

### 2.15 Classification of current and non-current balances

In the statement of financial position, balances are classified based on maturity i.e., current balances mature in no more than twelve months and non-current balances in more than twelve months.

Should the Company have any obligations that mature in less than twelve months but can be refinanced over the long term at the Company's discretion, through unconditionally available credit agreements with long-term maturities, such obligations may be classified as non-current liabilities.

### 2.16 Revenue recognition

The regulatory framework that governs electrical transmission activity in Chile comes from the by - Law of the Electric Services dated 1982 (DFL (M) No. 1/82), and subsequent amendments thereto, including Law 19.940 (called also the "Short Law") enacted on March 13, 2004, Law 20,018 ("Short Law II"), enacted on May 19, 2005 and Law 20,257 (Generation with Non-Conventional Renewable Sources of Energy), enacted on April 1, 2008. These are complemented by the by - Law of the Electric Services Regulations dated 1997 (Supreme Decree No. 327/97 of the Mining Ministry), and its amendments, and by the Technical Standard for Liability and Quality of Service (R.M.EXTA No. 40 dated May 16, 2005) and subsequent amendments thereto. On July 11, 2016, the new Transmission Law was enacted, which creates an Independent Coordinating entity of the National Electrical System (NES), called National Electrical Coordinator (CEN, according to the Spanish acronym), which groups the previous DEC SIC and CDEC SING; in addition, it establishes a new Electrical Transmission System in which the trunk transmission system, the subtransmission system and additional systems now form part of National, Zone and Committed Transmission System, respectively. To the remuneration received from the transmitter, a variable discount rate will be applied with a minimum of 7% and a maximum of 10% after taxes. The las enters into effect immediately and gradually until its full application as of 2020.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

**2.16 Revenue recognition (continued)**

Company's revenues are generated by the remuneration from customers for the use of its transmission facilities. The Company has two types of contracts with customers: regulated and contractual. The first one is subject to regulatory rates while the second one is related to contractual agreements with the user of the transmission facilities.

The total revenues for the use of the transmission facilities for both regulated and contractual arrangements includes in general two components: i) the AVI, which is the annuity of the Investment Value (VI), calculated in such a way that the present value of these annuities, using an annual real discount rate and the economic useful life of each of the facilities equals the cost of replacing the existing transmission facilities with new facilities with similar characteristics at current market prices, plus, ii) the COMA, which corresponds to the cost required to operate, maintain and administrate the corresponding transmission facilities.

The Company has the right to collect from its customers a "toll" which is composed by an "AVI+COMA" related to the use of its transmission facilities. The Electrical Law stablishes these "AVI+COMA" as integral components in rendering the transmission service. Therefore, due to these services are substantially the same and they have the same stream of transference to customers, in other words, both services are satisfied through the time with a similar progress measurement; The company has defined that there is a unique performance obligation and it is satisfied during a period of time, therefore revenues are recognized in the same base.

Revenues from both regulatory and contractual arrangements are recognized and invoiced on a monthly basis, using fixed monthly amounts resulting from values stipulated in the contracts or resulting from the regulated tariffs and indexed as applicable. The transmission service is invoiced usually at the beginning of the month following the month when the service was rendered and thus the revenue recognized each month includes transmission service provided but not invoiced up to the month end.

**2.17 Leases**

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at the inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or whether or not the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.

**2.17.1 The Company as lessor**

The assets held under a finance lease are presented in other financial assets at an amount equal to the net investment in the lease, being the aggregate of: (i) minimum lease payments receivable and (ii) any unguaranteed residual value accruing to the Company discounted at the interest rate implicit in the lease. The income (interest) is recognized on a pattern reflecting a constant periodic rate of return on the net investment in the lease; this income is presented in the statement of income in operating revenues. Lease payments relating to the period, excluding costs for any separate services, are applied against the gross investment in the lease to reduce both the principal and the unearned finance income.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)**

**2.17 Leases (continued)**

**2.17.1 The Company as lessor (continued)**

Assets subject to operating leases are presented in the statement of financial position according to the nature of the asset. Lease income from operating leases is recognized in income on a straight-line basis over the lease term, unless another systematic basis is more representative to reflect time pattern in which use benefit derived from the leased asset is diminished.

**2.17.2 The Company as lessee**

Finance leases in which acts as lessee are recognized when the agreement begins, recording an asset based on the nature of the lease and a liability for the same amount, equal to the lesser of the fair value of the leased asset or the present value of the minimum lease payments.

Subsequently, the minimum lease payments are divided between finance expense and reducing the debt. The finance expense is recorded in the income statement and distributed over the period of the lease term so as to obtain a constant interest rate for each period over the balance of the debt pending amortization. The asset is amortized in the same terms as other similar depreciable assets, as long as there is reasonable certainty that the lessee will acquire ownership of the asset at the end of the lease. If no such certainty exists, the asset will be amortized over the lesser term between the useful life of the asset and the term of the lease.

**2.17.3 Rights from Use of Lease**

The company has lease agreements on several Property, Plant and Equipment items. Under IAS 17, the Company classified each of its assets on the date of origin as a finance lease or an operating lease. Leases were classified as finance leases if they substantially transferred to the company all the risks and rewards incidental to ownership of the leased asset; otherwise, they were classified as operating leases.

In adopting IFRS 16, the Company applied a single recognition and measurement approach to all leases (in which the Company acts as lessee), except for short-term leases and low-value assets. In addition, the standard provides specific transition requirements and practical solutions, which the Company has applied.

**2.17.3.1 Leases previously classified as operating leases**

The Company recognized assets for right of use and lease liabilities in regards to leases previously classified as operating leases (in which the Company acts as lessee), except in the case of short-term leases and leases of low-value assets.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)

### 2.17 Leases (continued)

### 2.17.3 Rights from Use of Lease (continued)

#### 2.17.3.1 Leases previously classified as operating leases (continued)

The right-of-use assets in the case of most leases were recognized based on book value as if the Standard had always been applied, except for the use of the passive rate on the date of initial application. In some leases, the right-of-use assets were recognized based on the amount equal to the lease liability, adjusted for the amount of any advance or accumulated (accrued) lease payment that has been previously recognized. Lease liabilities were recognized based on the present value of the remaining lease payments, discounted through the use of the increasing passive rate at the date of initial application.

The practical solutions used by the Company in the application of IFRS 16 were:

a) Single discount rate for a lease portfolio with reasonably similar characteristics.

b) Evaluation of onerous leases before the date of initial application.

c) Application of the exceptions for short-term leases (maturity less than 12 months) on the date of the initial application.

d) Exclusion of the initial direct costs of measuring the right of use asset on the date of initial application.

e) Retrospective evaluation to determine the term of the lease in those cases in which the contracts contain renewal options or termination of the lease.

#### 2.17.3.2 Right of Use Assets

The Company recognizes right of use assets at the inception date of the lease (i.e., the date on which the underlying asset is available for use). The right-of-use assets are measured at cost, less any accumulated depreciation and impairment loss, and are adjusted for any new measurement of lease liabilities. The cost of the right of use assets includes the amount of the recognized lease liabilities, the initially incurred direct costs and the lease payments on or before the inception date minus any received lease incentives.

Recognized right-of-use assets are depreciated on a straight-line basis for the shortest of their estimated useful life and the term of the lease and are subject to impairment review.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)

### 2.17.3 Rights of Use Assets (continued)

#### 2.17.3.3 Lease Liabilities

On the inception date of the lease, the Company recognizes the lease liabilities at the present value of the lease payments that must be made during the term of the lease. In calculating the present value of the lease payments, the Company uses the incremental indebtedness rate at the inception date of the lease if the interest rate implicit in the lease can not be determined. After the inception date, the amount of lease liabilities is increased to reflect the accrued interest and is reduced as per the lease payments made. In addition, the book value of the lease liabilities is remeasured if there is a revision, a change in the term of the lease, a substantial change in the fixed lease payments or a change in the evaluation of the purchase of the underlying asset.

#### 2.17.3.4 Short-term leases and lease of low-value assets

The Company applies the exception for recognition of short-term leases to its leases that have a term of 12 months or less from the inception date and that do not contain a renewal option. The lease recognition exception also applies for contracts that involve low value assets (less than USD 5,000). Short-term lease payments and leases of low-value assets are recognized as expenses on a straight-line basis over the term of the lease.

Significant judgment in determining the lease term for contracts with renewal options. The Company determines the lease term as the non-cancelable term of the lease, along with any period covered by an option to extend the lease if there is reasonable assurance that it will be exercised, or any period covered by an option to terminate the lease, if there is reasonable assurance that it will not be exercised.

The Company includes the renewal period as part of the term of the lease in the case of leases of assets of significant importance for its operations. These leases have a short non-cancelable period (i.e., three to five years) and there would be a significant negative effect on production if a replacement is not available.

At the time of initial recognition as of January 1, 2019, right of use assets and lease liabilities (net of deferred interest) were recognized for an amount of ThCh$ 6,032,968.

### 2.18 Distribution of dividends

Dividends payable to the Company's shareholders are recognized as a liability in the Consolidated Financial Statements in the period in which they are approved by the Company's shareholders.

Company makes a provision at the end of each year for the 30% of the profit of the year, in accordance with Law N° 18,046.

On the Company's Board meeting No. 57 held on December 31, 2010, the policy used for the determination of distributable net profit was approved. This policy does not contemplate adjustments to the profit attributable to owners of the parent.

As of March 31, 2020, the company has not distributed or paid dividends (see note 19.3).

## 3 - RISK MANAGEMENT POLICY

### 3.1 Financial risk

Transelec is exposed to the following risks as a result of the financial instruments it holds: market risk stemming from interest rates, exchange rates and other prices that impact market values of financial instruments, credit risk and liquidity risk. The following paragraphs describe these risks and how they are managed.

#### 3.1.1 Market risk

Market risk is defined for these purposes as the risk of changes in the fair value or future cash flows of a financial instrument as a result of changes in market prices. Market risk includes the risk of changes in interest and exchange rates, inflation rates and variations in market prices due to factors other than interest or exchange rates such as commodity prices or credit spread differentials, among others.

Company policy regulates investments and indebtedness, in an attempt to limit the impact of changes in the value of currencies and interest rates on the Company's net results by:

a) Investing cash surpluses in instruments maturing within no more than 90 days.

b) Entering into swap contracts and other instruments to maintain a balanced foreign exchange position.

c) Entering into long-term fixed rate indebtedness thus limiting risk from variable interest rates.

##### 3.1.1.1 Interest rate risk

Significant changes in fair values and future cash flows of financial instruments that can be directly attributable to interest rate risks include changes in the net proceeds from financial instruments whose cash flows are determined in reference to floating interest rates and changes in the value of financial instruments with fixed cash flows.

The Company´s assets are primarily fixed and long-lived intangible assets. Consequently, financial liabilities that are used to finance such assets consist primarily of long-term liabilities at fixed rates. This debt is recorded in the balance sheet at amortized cost.

The objective of interest rate risk management is to achieve a balanced debt structure, decrease the impact on costs due to interest rate variations and, reduce volatility in the income statement.

**3 - RISK MANAGEMENT POLICY (continued)**

**3.1 Financial risk (continued)**

**3.1.1 Market risk (continued)**

**3.1.1.1 Interest rate risk (continued)**

The table below compares the debts of the Company and shows that all of the debt of the Company as of March 31, 2020 and as of December 31, 2019 was at fixed rate (taken at a fixed rate or at a variable rate and fixed by means of derivatives). In addition, in the case of UF-indexed debt, variations in inflation rates could potentially impact the Company's financial expenses.

| Debt | Currency or index | Interest Rate | Type of rate | Amount in Original Currency (thousand) | |
|---|---|---|---|---|---|
| | | | | March 31, 2020 | December 31, 2019 |
| Series D Bond | UF | 4.25% | Fixed | 13,500 | 13,500 |
| Series H Bond | UF | 4.80% | Fixed | 3,000 | 3,000 |
| Series K Bond | UF | 4.60% | Fixed | 1,600 | 1,600 |
| Series M Bond | UF | 4.05% | Fixed | 3,400 | 3,400 |
| Series N Bond | UF | 3.95% | Fixed | 3,000 | 3,000 |
| Series Q Bond | UF | 3.95% | Fixed | 3,100 | 3,100 |
| Senior Notes | USD | 4.625% | Fixed | 300,000 | 300,000 |
| Senior Notes | USD | 4.250% | Fixed | 375,000 | 375,000 |
| Senior Notes | USD | 3.875% | Fixed | 350,000 | 350,000 |
| Revolving Credit Facility | USD | 2.4403% | Floating (*) | 100,000 | - |
| Revolving Credit Facility | UF | 0.35% | Floating (**) | - | - |

(*) The floating rate 2.4403% of the Revolving credit facility breaks down in 3M LIBOR plus a margin of 1.25%. As of March 31, 2020, the Company has drawn this line in the amount of US$ 100m.

(**) The floating rate 0.35% of the Revolving credit facility breaks down in TAB UF 180 plus a margin of 0.25%. At March 31, 2020, the Company did not utilize this line therefore does not pay such interest, and currently is paying a fixed commission of 0.15% per annum of the committed amount undrawn.

**3 - RISK MANAGEMENT POLICY (continued)**

**3.1 Financial risk (continued)**

**3.1.1 Market risk (continued)**

**3.1.1.1 Interest rate risk (continued)**

Although, inflation increases may have an impact on the costs of the debt denominated in UF and, therefore, on the Company's financial expenses, these impacts are slightly reduced by accounts receivable denominated in UF.

The following table shows the effects of the debt indexed to the UF (the debt of Transmisión del Melado SpA is excluded since it was prepaid) on the company's financial result.

| Serie | Position in UF | Annual Effect on income (ThCh$) | | |
|---|---|---|---|---|
| | Long / (Short) | Inflation (3%) | Inflation (4%) | Inflation (2%) |
| Series D Bond | (13,400,848) | (20,798) | (24,630) | (16,966) |
| Series H Bond | (3,000,833) | (4,658) | (5,516) | (3,799) |
| Series K Bond | (1,598,841) | (2,482) | (2,939) | (2,024) |
| Series M Bond | (1,470,837) | (2,283) | (2,703) | (1,862) |
| Series M1 Bond | (1,859,571) | (2,886) | (3,418) | (2,354) |
| Series N Bond | (2,872,925) | (4,458) | (5,280) | (3,637) |
| Series Q Bond | (3,073,354) | (4,770) | (5,649) | (3,891) |
| **Total** | **(27,277,209)** | **(42,335)** | **(50,135)** | **(34,533)** |

**3.1.1.2 Exchange rate risk**

Transelec's exposure to the risk of exchange rate variations is due to the following:

- Transelec carries out several types of transactions in U.S. dollars (certain construction contracts, import purchases, etc.).
- Transelec Maintains accounts receivables in US dollars.
- Transelec maintains Cross Currency Swap contracts, which offset exchange rate risks of international emissions made in 2014 and 2016, for notional amounts equivalent to US$ 375 million and US$ 350 million, respectively (Long-term position).
- Maintains lease contracts that generate income indexed to US dollars.

**NOTE 3 - RISK MANAGEMENT POLICY (continued)**

**3.1 Financial risk (continued)**

**3.1.1 Market risk (continued)**

**3.1.1.2 Exchange rate risk (continued)**

The exposure to exchange rate risk is managed through a policy approved by senior management, which includes fully hedging the net exposure (monetary items) of the balance sheet, which is carried out through various instruments such as positions in US dollars, forward contracts and cross currency swaps.

The following table details the amounts of monetary assets and liabilities denominated into dollar and Chilean pesos in the periods indicated below:

| | Liabilities | | Assets | |
|---|---|---|---|---|
| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
| U.S. dollar (amounts associated with balance sheet items) | 954,593 | 774,341 | 952,780 | 773,997 |
| Chilean peso | 1,904,703 | 1,596,539 | 1,906,515 | 1,596,884 |

The indexation formulas applied biannually and incorporated into the toll contracts of the zone System (former Subtransmission) as well as the monthly application for the regulated revenue of the National System (former trunk system) allow presentation of the variations of the value of the installations and the costs of operation, maintenance and management. Generally, these indexation formulas contemplate the variations in the international equipment prices, material prices and national manpower prices.

**3.1.1.2.1 Sensivity analysis**

The following chart shows the sensitivity analysis of various items to a 10% increase or decrease in exchange rates (US Dollar) and their effect on income or equity. This exchange rate sensitivity (10%) is used to internally report the Company's foreign exchange risk to key management personnel and represents management's valuation of the possible change in US Dollar exchange rate. The sensitivity analysis includes asset and liability balances in currencies other than the Company's functional currency. A positive number indicates an increase in income or other comprehensive income when the Chilean peso is strengthened with respect to the foreign currency. A negative percentage implies a weakening of the Chilean peso with respect to the foreign currency, which negatively impacts the income statement or in other comprehensive income.

**NOTE 3 - RISK MANAGEMENT POLICY (continued)**

**3.1 Financial risk (continued)**

**3.1.1 Market risk (continued)**

**3.1.1.2 Exchange rate risk (continued)**

**3.1.1.2.1 Sensitivity analysis (continued)**

| | Position | Net income (gain)/loss | | Position | OCI | |
|---|---|---|---|---|---|---|
| **Item (Currency)** | **Long /(Short)** | **Change (-10%)** | **Change (+10%)** | **Long /(Short)** | **Change (-10%)** | **Change (+10%)** |
| Cash (US$) | 85,177 | (111) | 111 | - | - | - |
| Leasing (US$) | 35,619 | (46) | 46 | - | - | - |
| Forwards (assets) (US$) | 3,097 | - | - | (22) | - | - |
| Senior Notes (US$) | (872,464) | 1,138 | (1,138) | - | - | - |
| Swaps | 609,082 | (794) | 794 | 127,987 | (167) | 167 |
| Intercompany loan (US$) | 220,699 | (288) | 288 | - | - | - |
| Other (US$) | (85,226) | 111 | (111) | - | - | - |
| **Total** | (4,016) | 10 | (10) | 127,965 | (167) | 167 |

**3.1.2 Credit risk**

With respect to credit risk related to accounts receivable from the electricity transmission activity, this risk is historically very low in the industry given the nature of business of the Company's customers and the short-term period of collection of receivables from clients leads to the situation in which they do not accumulate very significant amounts.

However, revenues are highly concentrated in major customers as shown in the following table:

| **Revenues** | **For the period ended March 31, 2020 ThCh$** | **For the period ended March 31, 2019 ThCh$** |
|---|---|---|
| Enel Group | 27,397,349 | 28,771,899 |
| CGE Group | 15,743,670 | 9,740,683 |
| AES Gener Group | 9,662,449 | 10,668,962 |
| Colbún Group | 7,580,618 | 13,630,328 |
| Engie (E-CL) Grouo | 6,526,894 | 3,740,287 |
| Others | 30,059,349 | 18,616,715 |
| **Total** | **96,970,329** | **85,168,874** |
| **% of concentration of top customers** | **69.00%** | **78.14%** |

**NOTE 3 - RISK MANAGEMENT POLICY (continued)**

**3.1 Financial risk (continued)**

**3.1.2 Credit risk (continued)**

Tolls and tariff revenues that these companies must pay to use the transmission system will generate significant future cash flows of Transelec and a substantial change in their assets, financial conditions and / or results of operations could adversely affect the Company.

Regarding the credit risks associated with financial assets of the Company other than accounts receivable (time deposits, mutual funds, bonds, covenants, active position derivative), the policy of the Treasury establishes limits on exposure to a particular institution, and this limit depends on the risk classification and capital of each institution. Additionally, in the case of investments in mutual funds, only the ones having risk classification qualify.

**3.1.3 Liquidity risk**

Liquidity risk is the risk of the Company not satisfying a need for cash or debt payment upon maturity. Liquidity risk also includes the risk of not being able to liquidate assets in a timely manner at a reasonable price.

**a) Risk associated to Company's management**

To guarantee that it is able to respond financially both the investment opportunities and to the timely payment of its obligations. Transelec separately records its available cash and short-term accounts receivable with a dedicated Revolving Credit (RC) for working capital divided in two tranches; for US$ 150 million and UF 2,5 million, both amount equivalents to Ch$165,090 billion. To date, this committed line doesn't register amounts used. This committed line of credit was contracted on July 9, 2012, is granted for a period of three years by a bank syndicate consisting of Scotiabank, Bank of Tokyo-Mitsubishi and DnB NOR.

Additionally, this line was renegotiated and extended on October 15, 2014 until October 15, 2017. Posteriorly, was done a new amendment to extend the expiration of the credit line for three years more.

In this opportunity the bank syndicate was formed by Scotiabank and Banco Estado for the UF tranche and by The Bank of Nova Scotia, Bank of Tokyo-Mitsubishi, DnB Bank y Export Development Canada for USD tranche. In this last negotiation was keeping the conditions previously negotiated.

(a) Commissions payable on committed unused amounts (Commitment Fee) from 0.6% to 0.4375%.
(b) The margin or spread over used amounts from 2.35% to 1.25%.
(c) Other restrictions clauses more favorable to Transelec.

The Company is exposed to risks associated with indebtedness, including refinancing risk when its debt matures. These risks are mitigated by using long-term debt and appropriately structuring maturities over time.

**NOTE 3 - RISK MANAGEMENT POLICY (continued)**

**3.1 Financial risk (continued)**

**3.1.3 Liquidity risk (continued)**

**a) Risk associated to Company's management (continued)**

The following table presents the capital amortizations and estimated interest payments corresponding to the Company's financial liabilities (debt), according to their maturity date, as of March 31, 2020 and December 31, 2019.

| Debt maturity (equity and interest) | Less than 1 Years ThCh$ | 1 to 3 Years ThCh$ | 3 to 5 Years ThCh$ | 5 to 10 Years ThCh$ | More than 10 years ThCh$ | Total ThCh$ |
|---|---|---|---|---|---|---|
| March 31, 2020 | 155,293,409 | 140,134,924 | 697,522,299 | 863,578,007 | 497,484,336 | 2,354,012,975 |
| December 31, 2019 | 65,254,362 | 130,508,724 | 344,741,957 | 1,108,424,936 | 495,527,134 | 2,144,457,113 |

The maturity of derivatives is presented Note 15.2.

**b) Associated risk to the settlement of trunk transmission system tariff revenues (Ex Troncal)**

According to Decree N°4/20,018 from the Ministry of Economy, Fomentation and Reconstruction, in its articles 81, 101, 104 and 106, and complementary rules, Transelec has the right to perceive on a provisory basis the real tariff income (IT for its name in Spanish) of the Sistema Nacional (Ex Troncal) generated for every period.

In order to get their own revenues set up in the first paragraph of article N°101 of the above mentioned Decree N°4/20,018, the real tariff income perceived on a provisory basis must be settled by Transelec according to the repayment schedule prepared by the respective CEN (National Electrical Coordinator) through the collection or payment to the different companies, owners of generation facilities.

Transelec could face the risk of not timely collecting the IT that some of the companies owners of generation facilities should pay as determined in the energy balances prepared by CEN, what may temporarily affect the Company's liquidity position. In this sense, and in the opinion of the Company, the "clearing house" function that Transelec fulfills in the above-mentioned collection process, consists not of the collection of amounts for its own benefit, but it is merely collection and subsequent transfers to third parties of credits and debts that belong to the generating companies, with the exception of the expected IT.

**NOTE 3 - RISK MANAGEMENT POLICY (continued)**

### 3.2 Situation of COVID-19

Current situation of COVID-19 has had a minor impact so far on the financial and operative aspects of the Company. However, the Company has been making preventive decisions in order to keep the operative performance according to the standard before the pandemic.

For the Finance perspective, the Company has been caution about its liquidity position, considering saving in costs and even some delay in investments and distributions if needed. As of March 2020, the liquidity position of the Company is solid and it has available a revolving credit line which has been drawn for US$100m.

For the Customers and Collectability perspective, at the issuance of this Financial Statements the Company did not have identified any modification in the payment stream from customers. However, currently the Chilean Government has announced that the interruption of services to those clients that had some delay in the payments of their monthly bills for the next 3 months will not be allowed and those unpaid periods will be charge into the bills of the following 12 months. This announcement will affect the more vulnerable sector of Distributors' customers (app. 10-40%). According to above, this should have a temporary effect in the collection from customers (not the revenues recognition) for the period this announcement stands. Preliminary estimations considers an impact close to 8-10% of annual revenues that are going to be rescheduled and collected starting on July 2020.

For the Operational perspective, the facilities of the Company keep performing as regular and just minor adjustment had to be made in order to prioritize critical activities due to the pandemic. Main risks identified are related to the availability of personnel (internal and external) in order to keep the continuity of schedule tasks regarding the critical maintenance to ensure the continuous performance in Lines, Substations and Control & Telecommunications. In this regards, the Center of Operations has also been reinforce in order to keep operational continuity.

For the Personnel perspective, the Company has been working on the Teleworking modality for 45 days in all administrative and managing tasks maintaining the quality in its performance in this regard.

## 4 - CRITICAL ESTIMATES, JUDGMENTS OR CRITERIA EMPLOYED BY MANAGEMENT

The estimates and criteria used by the Company are continually evaluated and are based on historical experience and other factors, including expectations of future events that are considered reasonable based on the circumstances.

The Company makes estimates and assumptions about the future. By definition, the resulting accounting estimates will rarely be equal to the real outcomes. Estimates and assumptions with a significant risk of causing an important risk to the Company during the upcoming year are detailed below:

- The estimates of recoverable values of assets and goodwill to determine potential existence of impairment losses;
- Useful lives of property, plant and equipment and intangible assets;
- The assumptions used to calculate the fair value of financial instruments;
- The actuarial assumptions used to calculate obligations with employees;
- Future tax results for the purposes of determining the recoverability of deferred tax assets.
- Contingent assets and liabilities.
- Determination of existence and classification of financial or operating leases based on the transfer of risks and rewards of the leased assets (IFRS16), considerate the following:
  - Identification of whether a contract (or part of a contract) includes a lease.
  - Estimate the lease term.
  - Determine if it is reasonably true that it is an extension or termination option will be exercised.
  - Determination of the appropriate rate to discount lease payments.

Although the estimates mentioned above were made according to the best information available at the date of issuance of these Interim Consolidated Financial Statements, it is possible that future events oblige to modify them (upside or downside) in further periods, those modifications to each estimate will be recorded prospectively and recognized on those respective Consolidated Financial Statements.

## 5 - CASH AND CASH EQUIVALENTS

a) As of March 31, 2020 and December 31, 2019, this account is detailed as follows:

| | Balance as of | |
|---|---|---|
| **Cash and Cash Equivalents** | **March 31, 2020 ThCh$** | **December 31, 2019 ThCh$** |
| Bank and cash balances | 6,750,189 | 1,680,122 |
| Short term deposits | 84,866,645 | 3,404,498 |
| Reverse repurchase agreements and mutual funds | 131,962,630 | 103,557,742 |
| **Total** | **223,579,464** | **108,642,362** |

Cash and cash equivalents included in the statement of financial position as of March 31, 2020 and December 31, 2019 does not differ from those presented in the statement of cash flows.

## 5 - CASH AND CASH EQUIVALENTS (continued)

b) The following table details the balance of cash and cash equivalents by type of currency:

| Detail of Cash and Cash Equivalents | Currency | Balance as of March 31, 2020 ThCh$ | Balance as of December 31, 2019 ThCh$ |
|---|---|---|---|
| Amount of cash and cash equivalents | U.S. dollars | 85,165,343 | 4,021,429 |
| Amount of cash and cash equivalents | Euros | 11,356 | 252,235 |
| Amount of cash and cash equivalents | Chilean pesos | 138,402,765 | 104,368,698 |
| **Total** | | **223,579,464** | **108,642,362** |

Fair values are not significantly different from book values due to the short maturity of these instruments.

## 6 - TRADE AND OTHER RECEIVABLES

The detail as of March 31, 2020 and December 31, 2019 is as follows:

| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| Trade receivables | 106,256,521 | 86,831,886 |
| Miscellaneous receivables | 293,527 | 212,192 |
| **Total trade and other receivables** | **106,550,048** | **87,044,078** |

Refer to Note 7 for the amounts, terms and conditions of receivables from related parties.

As of March 31, 2020 and 2019, the aging of trade and other receivables is as follows:

| | Balance as of March 31, 2020 ThCh$ | Balance as of December 31, 2019 ThCh$ |
|---|---|---|
| Maturing in less than 30 days | 71,796,887 | 56,760,654 |
| Maturing in more than 30 days up to 1 year | 34,753,161 | 30,283,424 |
| **Total** | **106,550,048** | **87,044,078** |

Fair values do not differ significantly from book values due to the short term maturity of these instruments.

## 7 - BALANCES AND TRANSACTIONS WITH RELATED PARTIES

### 7.1 Balances and transactions with related parties

The balances of accounts receivables and payables between the company and its unconsolidated related companies are as follows:

**Account receivables from related companies**

| Tax ID Number | Company | Country | Description | Start Date | Maturity Date | Relation | Currency | Balance as of | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | | Current | | Non-current | |

These operations are in accordance with the provisions of Articles No. 44 and 49 of Law No. 18,046, on Corporations.

**7 - BALANCES AND TRANSACTIONS WITH RELATED PARTIES (continued)**

### 7.2 Board of Directors and management

In accordance with the Company's by-laws, the Board of Directors is composed of nine members appointed by shareholders at the respective shareholders' meeting. They hold their positions for two years and may be re-elected. For each Board Member there is an alternate Board Member.

The current Board of Directors was elected at the Ordinary Shareholders Meeting dated April 26, 2019, which was composed as follows: Mrs. Brenda Eaton as Director and Mr. Jordan Anderson as her alternate Director, Mr. Rui Han as Director and Mrs. Sihong Zhong as his alternate Director; Mr. Richard Cacchione as Director and Mr. Michael Rosenfeld as his alternate Director; Mr. Alfredo Ergas Segal as Director and Mr. Ricardo Szlejf as his alternate Director; Mr. Mario Valcarce Durán as Director and Mr. José Miguel Bambach Salvatore as his alternate Director; Mr. Blas Tomic Errázuriz as Director and Mr. Patricio Reyes Infante as his alternate Director; Mr. Alejandro Jadresic Marinovic as Director and Mr. Juan Agustín Laso Salvatore as his alternate Director; Mr. Juan Benabarre Benaiges as Director and Mr. Roberto Munita Valdés as his alternate Director; and Mrs. Patricia Núñez Figueroa as Director and Mr. Claudio Campos Bierwirth as her alternate Director.

At the Board meeting held on May 15, 2019, Mrs. Brenda Eaton was elected Chairman of Transelec.

On November 14, 2019, was approved by the members of the Board of Directors of Transelec S.A. a new composition accepting the waives of Messrs. Alfredo Ergas Segal and Ricardo Szlejf as of this date and appointing Mr. Scott Lawrence, who will be officially appointed at the next Ordinary Shareholders Meeting as the Replacement Director. It was also agreed to appoint Mr. Scott Lawrence as Chairman of the Board.

On March 11, 2020, the resignation of Mr. Juan Agustín Laso Bambarch to the position of Titular Director became official, which he assumed after the sensible death of Titular Director Sr, Alejandro Jadresic Marinovic during the year 2019. As of the same date, Mrs. Andrea Butelmann Peisajoff assumes as Interim Directorf, who will be officially appointed at the next Ordinary Shareholders Meeting, set for April 24, 2020.

Currently, the Board of Directors is composed of nine Regular Directors, with their respective Alternate Directors.

#### 7.2.1 Board of Directors' compensation

According to Article No. 33 of Law No. 18,046 on Corporations, at the Tenth Ordinary Shareholders' Board Meeting of Transelec S.A., held on April 26, 2019, it was agreed to maintain annual directors' allowance of US$ 90,000, gross value, regardless of the number of meetings actually attended or held. The allowance is paid quarterly.

At the Shareholders Board meeting held in 2019, was decided that substitute Directors will not be remunerated.

## 7 - BALANCES AND TRANSACTIONS WITH RELATED PARTIES (continued)

### 7.2 Board of Directors and management (continued)

#### 7.2.1 Board of Directors' compensation (continued)

At the Ordinary Shareholders' Meeting for 2019, it was decided that the alternate directors would not receive an allowance.

| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| Brenda Eaton (President)** | 14,963 | - |
| Scott Lawrence (President)* | - | - |
| Rui Han* | - | - |
| Alejandro Jadresic Marinovic | - | 14,069 |
| Richard Cacchione* | - | - |
| Alfredo Ergas Segal* | - | - |
| Blas Tomic Errázuriz | 16,847 | 14,069 |
| Mario Alejandro Valcarce Durán | 16,847 | 14,069 |

| Juan Ramon Benabarre Benaiges | 16,847 | 14,069 |
| Andrea Butelmann Peisajoff | - | - |

* Messrs Scott Lawrence (Chairman), Rui Han, Richard Cacchione and Alfredo Ergas Segal renounced their respective diets for the 2019 period.

* Mrs. Brenda Eaton submitted her waive as Chairman of the Board of Directors on November 14, 2019, which was approved by the Board of Directors of Transelec S.A.

### 7.3 Board expenses

As of March 31, 2020 and December 31, 2019 there have been no expenses related to consulting for the Board.

### 7.4 Audit committee

In April 2007, the Company approved creation of an Audit Committee, separate from that established in the Corporations Law. Its functions include, among others, reviewing the reports of the external auditors as well as the Company's balance sheets, other Consolidated Financial Statements and internal systems.

Transelec's Audit Committee is composed of four Directors, all of whom are qualified in financial matters and apply their specialized knowledge to diverse topics of interest to the Company, Committee members are appointed by the Board of Directors. They hold their positions for two years and may be re-elected. The Committee appoints a Chairman from among its members and a Secretary, who may be one of its members or the Secretary of the Board. The Audit Committee has held two sessions in 2019 and one session during 2020.

## 7 - BALANCES AND TRANSACTIONS WITH RELATED PARTIES (continued)

### 7.4 Audit committee (continued)

Through a mandate from the Board of Directors, members of the Audit Committee were elected and composed by its President Mr, Mario Valcarce Durán, Directors Mr, Alfredo Ergas, Mrs, Brenda Eaton and Mr, Juan Ramón Benabarre Benaiges, and Mrs. Patricia Angelina Nuñez Figueroa, besides the Secretary, Mr, Arturo Le Blanc Cerda.

As of the date of these Interim consolidated financial statements, the Audit Committee is maintained.

At the twelfth Ordinary Shareholders' Meeting of Transelec S.A., held on April 26, 2019, it was agreed to keep as compensation of the members of the Committee, the gross amount of US$ 10,000 per year regardless of the number of meetings that they actually attend or that are actually held.

The following compensation was received by members of the Audit Committee as of March 31, 2020 and 2019:

| | March 31, 2020 ThCh$ | March 31, 2019 ThCh$ |
|---|---|---|
| Mario Alejandro Valcarce Duran | 7,487 | 6,253 |
| Patricia Angelina Nuñez Figueroa | 7,487 | - |
| Juan Ramón Benabarre Benaiges | 7,487 | - |

### 7.5 Compensation of key management that are not Directors

**Members of Key Management**

| | |
|---|---|
| Andrés Kuhlmann Jahn | Chief Executive Officer |
| Sebastían Fernandez Cox | Vice-President of Business Development |
| Francisco Castro Crichton | Vice-President of Finance |
| Alexandros Semertzakis Pandolfi | Vice-President of Engineering and Construction |
| Claudio Aravena Vallejo | Vice-President of Human Resources |
| Arturo Le Blanc Cerda | Vice-President of Legal Matters |
| Rodrigo Lopéz Vergara | Vice-President of Operations |
| David Noe Scheinwald | Vice-President of Electrical Development |

The Company has established an incentive plan for its executives based on meeting certain individual goals that contribute to the Company's results. These incentives are structured as a minimum and maximum number of gross monthly salaries and paid once per year.

## 7 - BALANCES AND TRANSACTIONS WITH RELATED PARTIES (continued)

### 7.5 Compensation of key management that are not Directors (continued)

Compensation of key management personnel by concept for the years 2020 and 2019 is detailed as follows:

| | Balance as of | |
|---|---|---|
| | March 31, 2020 ThCh$ | March 31, 2019 ThCh$ |
| Salaries | 469,314 | 439,734 |
| Short-term employee benefits | 206,874 | 189,176 |
| Long-term employee benefits | 298,017 | 144,000 |
| **Total compensation received by key management personnel** | **974,205** | **772,910** |

## 8 - OTHER FINANCIAL ASSETS, LEASES

As of March 31, 2020 and December 31, 2019, this account is detailed as follows:

| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| Finance lease receivables current | 1,329,227 | 1,150,194 |
| Swap Contracts (See note 15) | - | - |
| Forward Contracts (See note 15) | - | 73,384 |
| **Sub-total Other financial assets current** | **1,329,227** | **1,223,578** |
| Finance lease receivables non-current | 34,290,229 | 30,342,702 |
| Swap Contracts (See note 15) | 127,987,411 | 40,976,656 |
| Other financial assets | 41,752 | 41,752 |
| **Sub-total Other financial assets non-current** | **162,319,392** | **71,361,110** |
| **Total** | **163,648,619** | **72,584,688** |

## 8 - OTHER FINANCIAL ASSETS, LEASES (continued)

### 8.1 Finance lease receivables

Within current and non-current other assets receivable, the Company includes assets that have been constructed at the express request of the lessee. Therefore, substantially all risks and benefits have been transferred when the assets are commissioned. Nominal value (gross investment in the lease) and present value of the minimum lease payments to be received are presented in the following tables:

| March 31, 2020 | | | |
|---|---|---|---|
| Period in years | Present Value ThCh$ | Interest receivable ThCh$ | Gross investment ThCh$ |
| Less than 1 | 1,329,227 | 3,952,065 | 5,281,292 |
| 1-5 | 5,749,805 | 14,929,318 | 20,679,123 |
| Over 5 | 28,540,424 | 46,503,825 | 75,044,249 |
| **Total** | **35,619,456** | **65,385,208** | **101,004,664** |

| December 31, 2019 | | | |
|---|---|---|---|
| Period in years | Present Value ThCh$ | Interest receivable ThCh$ | Gross investment ThCh$ |
| Less than 1 | 1,150,194 | 3,474,714 | 4,624,908 |
| 1-5 | 6,320,066 | 16,229,841 | 22,549,907 |
| Over 5 | 24,022,636 | 38,442,162 | 62,464,798 |
| **Total** | **31,492,896** | **58,146,717** | **89,639,613** |

**Movements in finance leases:**

| | Balance as of | |
|---|---|---|
| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
| **Opening balance** | **31,492,896** | **29,954,109** |
| Additions | 113,140 | 203,497 |
| Amortization | (331,423) | (1,053,041) |
| Translation difference | 4,344,843 | 2,388,331 |
| **Ending balance** | **35,619,456** | **31,492,896** |

## 9 - INTANGIBLE ASSETS

The following tables detail the balances within this account as of March 31, 2020 and December 31, 2019:

| Intangible assets, net | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| Rights of way (*) | 176,327,213 | 176,327,213 |
| Software | 5,134,282 | 5,875,156 |
| **Total intangible assets** | **181,461,495** | **182,202,369** |

(*) As of March 31, 2020 and December 31, 2019 Transelec S.A. present intangible assets with indefinite useful lives under the classification of rights of way.

| Intangible assets, gross | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| Rights of way | 176,327,213 | 176,327,213 |
| Software | 19,465,387 | 19,465,387 |
| **Total intangible assets** | **195,792,600** | **195,792,600** |

| Accumulated amortization and impairment | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| Software | (14,331,105) | (13,590,231) |
| **Total accumulated amortization** | **(14,331,105)** | **(13,590,231)** |

**9 - INTANGIBLE ASSETS (continued)**

The composition and movements of intangible assets as of March 31, 2020 and December 31, 2019 are the following:

| Movements in intangible assets | Rights of way<br>ThCh$ | Software<br>ThCh$ | Net intangible assets<br>ThCh$ |
|---|---|---|---|
| **Opening balance as of January 1, 2020** | **176,327,213** | **5,875,156** | **182,202,369** |
| Movements in intangible assets | | | |
| Additions | - | - | - |
| Retirements | - | - | - |
| Amortization | - | (740,874) | (740,874) |
| **Ending balance of intangible assets as of March 31, 2020** | **176,327,213** | **5,134,282** | **181,461,495** |

| Movements in intangible assets | Rights of way<br>ThCh$ | Software<br>ThCh$ | Net intangible assets<br>ThCh$ |
|---|---|---|---|
| **Opening balance as of January 1, 2019** | **176,039,780** | **5,219,985** | **181,259,765** |
| Movements in intangible assets | | | |
| Additions | 441,349 | 3,520,853 | 3,962,202 |
| Retirements | (153,916) | - | (153,916) |
| Amortization | - | (2,865,682) | (2,865,682) |
| **Ending balance of intangible assets as of December 31 , 2019** | **176,327,213** | **5,875,156** | **182,202,369** |

Based on estimates made by Management, projections of cash flows attributable to intangible assets allow the carrying value of these assets recorded as of March 31, 2020 and December 31, 2019 to be recovered.

## 10 – Goodwill

Goodwill represents the excess of the acquisition cost over the fair value of the group's identifiable net assets acquired.

### 10.1 Measurement of the recoverable value of goodwill

The Company has defined its only operating segment of Electric Power Transmission as the Cash Generating Unit (CGU) for the purpose of performing the impairment tests and therefore the surplus value at the date of the impairment test is fully assigned to this CGU.

The breakdown of this item as of March 31, 2020 and December 31, 2019 is as follows:

| Detail | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| Goodwill | 343,059,078 | 343,059,078 |
| | **343,059,078** | **343,059,078** |

### 10.2 Movement of goodwill in the Interim Consolidated Financial Statements:

The goodwill movements during the period ended March 31, 2020 and December 31, 2019 are:

| | ThCh$ |
|---|---|
| Opening balance as of January 1, 2020 | 343,059,078 |
| Changes: | |
| Increase (decrease) for Exchange difference | - |
| **Ending balances as of March 31, 2020** | **343,059,078** |

| | ThCh$ |
|---|---|
| Opening balance as of January 1, 2019 | 343,059,078 |
| Changes: | |
| Increase (decrease) for Exchange difference | - |
| **Ending balances as of December 31, 2019** | **343,059,078** |

### 10.3 Impairment test

Management considers that the value in use approach, determined by the discounted cash flow model, is the most reliable method for determining the recoverable values of the CGU. (The variables used by the Company are found in Note 2.8 Impairment of non-financial assets). The result of the impairment test, which includes a sensitivity analysis of its main variables, showed that the calculated recoverable values exceed the book value of the net assets of the respective cash-generating unit, and therefore no impairment was detected.

## 11 - PROPERTY, PLANT AND EQUIPMENT

### 11.1 Detail of accounts

The composition corresponds to the following detail:

| Property, plant and equipment, net | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| Land | 20,983,646 | 20,983,646 |

**11 - PROPERTY, PLANT AND EQUIPMENT (continued)**

### 11.3 Additional information on property, plant and equipment

Transelec has insurance policies to cover possible risks subject to various items of property, plant and equipment and possible claims that might be filed by exercising its activities, understanding that such policies cover sufficiently the risks to which they are taken.

The Company held as of March 31, 2020 and December 31, 2019 commitments to purchase items of property, plant and equipment arising from construction contracts under EPC (Engineering-Procurement-Construction) in the amount of ThCh$ 173,308,794 and ThCh$204,714,968, respectively.

The following table details capitalized interest costs in property, plant and equipment:

| | March 31, 2020 | December 31, 2019 |
|---|---|---|
| Capitalization rate (Annual basis) | 4.91% | 4.71% |
| Capitalized interest costs (ThCh$) | 1,411,842 | 2,147,489 |

Work in progress balances amounts to ThCh$169,186,536 and ThCh$135,552,321 as of March 31, 2020 and December, 2019 respectively.

### 11.4 – Lease right of use

The following are the carrying amounts of the right-of-use assets, and the movements during the period:

| Movement in Right of Use Assets | Right of use Land ThCh$ | Right of use Buildings ThCh$ | Right of use Vehicles ThCh$ | Total Right of use , net ThCh$ |
|---|---|---|---|---|
| **Opening balances as of January 01, 2019** | **-** | **-** | **-** | **-** |
| **Movements:** | | | | |
| Additions | 101,788 | 5.322,615 | 608,565 | 6,032,968 |
| Amortization Expense | (15,626) | (1,122,386) | (456,424) | (1,594,436) |
| **Closing balance as of December 31, 2019** | **86,162** | **4,888,529** | **152,141** | **5,126,832** |
| **Movements:** | | | | |
| Additions | - | - | - | - |
| Amortization Expense | (3,907) | (299,033) | (114,106) | (417,046) |
| **Closing balance as of March 31, 2020** | **82,255** | **4,589,496** | **38,035** | **4,709,786** |

As of March 31, 2020 and December 31, 2019 one of the main assets for use rights and liabilities for leases, comes from the contract between Seguros Vida Security vision S.A and Transelec S.A. This contract has a duration of 5 years from January 2019 and accrues interest at an annual rate of 2.3%.

## 12 - DEFERRED TAXES

### 12.1 Detail of deferred tax liabilities

The origin of deferred taxes recorded as of March 31, 2020 and December 31, 2019; corresponding to the company Transelec is detailed as follows:

| Temporary differences | Net deferred taxes | |
|---|---|---|
| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
| Depreciable fixed assets | (171,270,014) | (167,226,971) |
| Financial expenses | (170,450) | (210,162) |
| Leased assets | (7,060,223) | (5,573,603) |
| Materials and spare parts | \|155,257 | 141,951 |
| Tax losses | 5,462,563 | 16,974,715 |
| Staff severance indemnities provision | (79,419) | (76,642) |
| Deferred income | 1,416,999 | 1,443,835 |
| Obsolescence provision | 1,082,703 | 1,082,703 |
| Work in progress | 1,667,274 | 1,236,783 |
| Vacation provisions | 440,941 | 514,547 |
| Intangible assets | (3,944,275) | (4,614,934) |
| Adjustment of effective interest rate of bonds | (3,160,550) | (2,709,734) |
| Land | 1,886,519 | 1,804,089 |
| Goodwill | 826,601 | 864,830 |
| **Net deferred tax assets/(liabilities)** | **(172,746,074)** | **(156,348,593)** |
| | | |
| **Reflected in the statement financial position as follows:** | | |
| Deferred tax assets | - | - |
| Deferred tax liabilities | (172,746,074) | (156,348,593) |
| **Net deferred tax assets/(liabilities)** | **(172,746,074)** | **(156,348,593)** |

Tax losses balances amounts to ThCh$20,231,715 and ThCh$62,869,317 as of March 31, 2020 and December 31, 2019 respectively.

## 12 - DEFERRED TAXES (CONTINUED)

### 12.2 Deferred tax movements in statement of financial position

The movements of balances of deferred taxes in the statement of financial position for the periods March 31, 2020 and December 31, 2019 are as follows:

| Deferred tax movements | Asset ThCh$ | Liability ThCh$ |
|---|---|---|
| **Balance as of January 1, 2019** | **-** | 104,804,361 |
| Increase (decrease) | - | 51,544,232 |
| **Balance as of December 31, 2019** | **-** | **156,348,593** |
| Increase (decrease) | - | 16,397,481 |
| **Balance as of March 31, 2020** | **-** | **172,746,074** |

Recovery of deferred tax assets will depend on whether sufficient tax profits are obtained in the future. Based on its projections the Company believes that its future profits will allow these assets to be recovered.

## 13 - FINANCIAL LIABILITIES

The current and non-current portion of this account as of March 31, 2020 and December 31, 2019 is as follows:

### 13.3 Other aspects

As of March 31, 2020, Transelec had available a credit line of US$250 million, which as of March 27, 2020 registered a use of US$ 100 million, leaving a balance available of US$ 150 million.

Many of the Company's debt agreements include an obligation to comply with certain covenants, including certain financial ratios (see Note 19.5), which is customary for agreements of this nature. This also includes affirmative and negative obligations that require these commitments to be monitored.

## 14 - TRADE AND OTHER PAYABLES

Trade and other payables as of March 31, 2020 and December 31, 2019, are detailed as follows:

| Trade and other payables | Current | |
|---|---|---|
| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
| Trade and other payables | 25,058,654 | 29,227,990 |
| Other accounts payable | 4,031,976 | 1,895,917 |
| **Total** | **29,090,630** | **31,123,907** |

The average payment period for suppliers in the periods ended 2020 and 2019 was 30 days and, therefore, the fair value of these liabilities does not differ significantly from their book value.

## 15 - DERIVATIVE INSTRUMENTS

In adhering to its risk management policy, Transelec enters primarily into exchange rate derivatives (see Note 3). The Company classifies its derivatives as:

- Cash flow hedging instruments: Those that hedge the cash flows of the hedged underlying item,

In addition, the Company uses certain non-hedging derivatives: the instruments that do not meet the requirements of IFRS and thus do not qualify for hedge accounting.

**15 - DERIVATIVE INSTRUMENTS (continued)**

**15.1 Hedge assets and liabilities**

| | March 31, 2020 | | | | December 31, 2019 | | | |
|---|---|---|---|---|---|---|---|---|
| | Asset | | Liability | | Asset | | Liability | |

| Forward (non-hedging)) | - | - | 21,527 | - | 73,384 | - | - | - |
| **Total** | **-** | **127,987,411** | **1,878,309** | **-** | **73,384** | **40,976,656** | **4,070,487** | - |

**15 - DERIVATIVE INSTRUMENTS (continued)**

### 15.2 Other information

The following is the a detail of the derivatives contracted by Transelec as of March 31, 2020 and December 31, 2019, their fair value and the breakdown by maturity

| | | Maturity | | | | | | |
|---|---|---|---|---|---|---|---|---|
| Financial derivatives | Fair value | Before 1 year | 2021 | 2022 | 2023 | 2024 | Subsequent years | March 31, 2020 Total |
| | ThCh$ | ThCh$ | ThCh$ | ThCh$ | ThCh$ | ThCh$ | ThCh$ | ThCh$ |
| Currency hedge Swap | 126,130,629 | (1,856,782) | - | - | - | - | 127,987,411 | 126,130,629 |
| Forward | (21,527) | (21,527) | - | - | - | - | - | (21,527) |

| | | Maturity | | | | | | |
|---|---|---|---|---|---|---|---|---|
| Financial derivatives | Fair value | Before 1 year | 2020 | 2021 | 2022 | 2023 | Subsequent years | December 31, 2019 Total |
| | ThCh$ | ThCh$ | ThCh$ | ThCh$ | ThCh$ | ThCh$ | ThCh$ | ThCh$ |
| Currency hedge Swap | 36,906,169 | (4,070,487) | - | - | - | - | 40,976,656 | 36,906,169 |
| Forward | 73,384 | 73,384 | - | - | - | - | - | 73,384 |

The contractual notional amount of these contracts does not represent the risk assumed by Transelec as it is only in response to the basis with which derivative settlements are calculated. In the periods presented March 31, 2020 and December 31, 2019, Transelec had not recognized any gains or losses for ineffectiveness of cash flow hedges.

Derivatives are valued considering valuation techniques which include observable data, the most commonly used valuation techniques include swap valuation models using present value calculations. The models include several inputs including the credit risk of the counterparty, foreign exchange spot rates and interest rate curves.

**15 - DERIVATIVE INSTRUMENTS (continued)**

### 15.3 Fair value hierarchies

Financial instruments recognized at fair value in the statement of financial position are classified based on the following hierarchies: (a) Level 1: Quoted (unadjusted) price in an active market for identical assets and liabilities, (b) Level 2: Inputs other than quoted prices included in Level 1 that are observable for assets or liabilities, either directly (i,e, as a price) or indirectly (i.e., as a derivative of a price); and (c) Level 3: Inputs for assets or liabilities that are not based on observable market information (non-observable inputs).

The following table details financial assets and liabilities measured at fair value as of March 31, 2020 and December 2019

| Financial instrumental measured at fair value | March 31, 2020 | Fair value measured at the end of the reporting period using Level 1 ThCh | Level 2 ThCh$ | Level 3 ThCh$ |
|---|---|---|---|---|
| **Financial asset (liability)** | | | | |
| Currency hedge Swap | 126,130,629 | - | 126,130,629 | - |
| Cash flows derivatives (non-hedging) | (21,527) | - | (21,527) | - |
| **Total, net** | **126,109,102** | **-** | **126,109,102** | **-** |

| Financial instrumental measured at fair value | December 31, 2019 | Fair value measured at the end of the reporting period using Level 1 ThCh | Level 2 ThCh$ | Level 3 ThCh$ |
|---|---|---|---|---|
| **Financial asset (liability)** | | | | |
| Currency hedge Swap | 36,906,169 | - | 36,906,169 | - |
| Cash flows derivatives (non-hedging) | 73,384 | - | 73,384 | - |
| **Total, net** | **36,979,553** | **-** | **36,979,553** | **-** |

## 16 - FINANCIAL INSTRUMENTS

The classification of financial assets in the categories described in Note 2.9 is shown below:

| | Financial Assets to Amortized Cost | Financial Assets to Fair Value | | Derivative Instruments | | Total |
|---|---|---|---|---|---|---|
| March 31, 2020 | ThCh$ | For profit or loss ThCh$ | For other comprehensive income ThCh$ | Hedge ThCh$ | No Hedge ThCh$ | ThCh$ |
| Cash and cash equivalents | - | 223,579,464 | - | - | - | 223,579,464 |
| Other financial assets, current | 1,329,227 | - | - | - | - | 1,329,227 |
| Trade and other receivables | 106,550,048 | - | - | - | - | 106,550,048 |
| Other financial assets, non-current | 34,290,229 | 41,752 | - | 127,987,411 | - | 162,319,392 |

## 17 - PROVISIONS

### 17.1 Detail of provisions

The detail as of March 31, 2020 and December 31, 2019, is as follows:

| Detail | Current | | Non-current | |
|---|---|---|---|---|
| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
| Staff severance indemnities | 1,671,544 | 365,539 | 3,824,707 | 5,821,598 |
| Accrued vacations | 1,633,116 | 1,905,730 | - | - |
| Profit sharing benefits | 664,242 | 3,677,000 | - | - |
| Other provisions | 205,447 | 205,447 | - | - |
| **Total** | **4,174,349** | **6,153,716** | **3,824,707** | **5,821,598** |

### 17.2 Provision movements

The movement of these obligations in the period ended as of March 31, 2020 and December 31, 2019 is as follows:

| Movements in provisions | Staff severance indemnities ThCh$ | Profit sharing benefits ThCh$ | Accrued vacations ThCh$ | Other provisions ThCh$ | Total ThCh$ |
|---|---|---|---|---|---|
| **Opening balance as of January 1, 2020** | **6,187,137** | **3,677,000** | **1,905,730** | **205,447** | **11,975,314** |
| Movements in provisions: | | | | | |
| Provisions during the year | 93,830 | 1,859,254 | 346,568 | - | 2,299,652 |
| Payments | (784,716) | (4,872,012) | (619,182) | - | (6,275,910) |
| **Ending balance as of March 31, 2020** | **5,496,251** | **664,242** | **1,633,116** | **205,447** | **7,999,056** |

| Movements in provisions | Staff severance indemnities ThCh$ | Profit sharing benefits ThCh$ | Accrued vacations ThCh$ | Other provisions ThCh$ | Total ThCh$ |
|---|---|---|---|---|---|
| **Opening balance as of January 1, 2019** | **6,114,557** | **4,497,305** | **1,820,222** | **205,447** | **12,637,531** |
| Movements in provisions: | | | | | |
| Provisions during the year | 379,684 | 6,365,580 | 1,396,460 | - | 8,141,724 |
| Payments | (307,104) | (7,185,885) | (1,310,952) | - | (8,803,941) |
| **Ending balance as of December 31, 2019** | **6,187,137** | **3,677,000** | **1,905,730** | **205,447** | **11,975,314** |

**17 - PROVISIONS (continued)**

**17.2 Provision movements (continued)**

The maturity of these provisions is detailed in the table below:

**As of March 31, 2020**

| Detail | Less than 1 year | More than 1 year and up to 3 years | More than 3 years and up to 5 years | More than 5 years |
|---|---|---|---|---|
| Staff severance indemnities (nota 18) | 1,671,544 | 539,373 | 1,036,801 | 2,248,533 |
| Accrued vacations | 1,633,116 | - | - | - |
| Profit sharing benefits | 664,242 | - | - | - |
| Other provisions | 205,447 | - | - | - |
| **Total** | **4,174,349** | **539,373** | **1,036,801** | **2,248,533** |

**As of December 31, 2019**

| Detail | Less than 1 year | More than 1 year and up to 3 years | More than 3 years and up to 5 years | More than 5 years |
|---|---|---|---|---|
| Staff severance indemnities (nota 18) | 365,539 | 484,907 | 1,051,093 | 4,285,598 |
| Accrued vacations | 1,905,730 | - | - | - |
| Profit sharing benefits | 3,677,000 | - | - | - |
| Other provisions | 205,447 | - | - | - |
| **Total** | **6,153,716** | **484,907** | **1,051,093** | **4,285,598** |

**17.3 Provision for employee benefits**

**Severance pay for years of service**
The Company has constituted a provision to cover the obligation of severance pay for years of service, to be paid to its employees, in accordance with the collective contracts signed with the latter. This provision represents the entire accrued provision (see note 18).

**Vacation accrual**
This obligation corresponds to the expense for vacations granted and not accrued by the Company's employees, whose benefit is specified in individual contract of each employee.

**Annual benefits**
This provision primarily includes allowances for employee participation in the Company's income, which are mostly paid within the first quarter of the following year.

**17 - PROVISIONS (continued)**

**Other provisions**
This category's balance primarily corresponds to the obligation for health agreement contributions.

### 17.4 Lawsuits and arbitration proceedings

1) With regard to delays in two of the important milestones of Nogales-Polpaico project, the Ministry of Energy proceeded in June 2016 to collect two guarantees for a total of US $ 2,960,000. In September 2016, the CDEC-SIC (currently CEN) settled the fine for delays to start the operations of the Project and reported that Transelec was obliged to pay the maximum fine, that is, US$1,800,000. Transelec filed an appeal for protection against the CDEC-SIC (currently CEN) and the Ministry of Energy, since there are requests for extension of time they have not been resolved by the Ministry, so it is entirely inappropriate to act CDEC-SIC (currently CEN) and the failure of the Ministry of Energy. The Court of Appeals declared admissible and ordered injunction. By judgment dated December 13, 2016, the Court of Appeals rejected the protection. . The Supreme Court rejected the appeal presented. TGR's report of the fine is pending, to then proceed with its payment.

   As of March 31, 2020 the Company has established a provision for these and other contingents liabilities totaling to ThCh$ 1.533.654 (US$1,800,000) considering for the purpose of this estimate that there are similar cases in the Court of Appeals in which the Court of Appeals rejected the claim, pending the hearing of the appeal before Supreme Court, that in such cases has confirmed the decisions of the SEC.

2) As of March 31, 2020, Transelec has a provision of UTM 43,500, equivalent to 50% of three fines applied by the Superintendence of Electricity and Fuels. The first two correspond to the interruption of the electricity supply due to a failure of the Maitencillo-Vallenar power line that occurred on August 1, 2018. The other correspond to the failure of the Cóndores-Parinacota power line on December 18, 2018, there were paths claims of illegality before the Court of Appeals of Santiago, without sentence to date. As of March 31, 2020, this provision amounts to ThCh$ 2,175,914.

**18 - POST-EMPLOYMENT AND OTHER BENEFIT OBLIGATIONS**

### 18.1 Detail of account

| Employee benefit obligations | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| Staff severance indemnity provision – current | 1,671,544 | 365,539 |
| Staff severance indemnity provision non – current | 3,824,707 | 5,821,598 |
| **Total Employee benefit obligations Current and Non-current** | **5,496,251** | **6,187,137** |

## 18 - POST-EMPLOYMENT AND OTHER BENEFIT OBLIGATIONS (continued)

### 18.2 Detail of obligations to employees

As of March 31, 2020 and December 31, 2019, this account is detailed as follows:

| | Staff severance indemnity | |
|---|---|---|
| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
| Present value of defined benefit plan obligations opening balance | 6,187,137 | 6,114,557 |
| Current service cost of defined benefit plan obligations | 93,830 | 550,637 |
| Liquidations obligation defined benefit plan | (784,716) | (484,057) |
| **Present value of defined benefit obligations ending balance** | **5,496,251** | **6,187,137** |

### 18.3 Balance of obligations to employees

| | Staff severance indemnity | |
|---|---|---|
| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
| **Present value of defined benefit obligations, ending balance** | **5,496,251** | **6,187,137** |
| Present obligation with defined benefit plan funds | 5,496,251 | 6,187,137 |
| **Balance of defined benefit obligations, ending balance** | **5,496,251** | **6,187,137** |

### 18.4 Expenses recognized in income statement

| | Staff severance indemnity | | Income statement line item where recognized |
|---|---|---|---|
| | January 1, 2020 to March 31, 2020 ThCh$, | January 1, 2019 to December 31, 2019 ThCh$ | |
| Current service cost of defined benefit plan | 55,075 | 178,066 | Cost of sales and Administrative expenses |
| Interest cost of defined benefit plan | 38,755 | 379,683 | Cost of sales and Administrative expenses |
| **Total expense recognized in income statement** | **93,830** | **557,749** | |

**18 - POST-EMPLOYMENT AND OTHER BENEFIT OBLIGATIONS (continued)**

### 18.5 Actuarial hypothesis

| Detail | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| Discount rate used | 0.89% | 0.75% |
| Inflation rate | 3.00% | 3.00% |
| Future salary increase | 1.10% | 1.10% |
| Mortality table | RV-2014 | RV-2014 |
| Disability table | 30% RV-2014 | 30% RV-2014 |
| Rotation table | 2.77%/0.92% | 2.77%/0.92% |

Assumptions for future mortality rates are based on actuarial data obtained using published statistics and historical experience,

### 18.6 Sensitivity analysis

The following chart shows the sensitivity analysis of the significant hypotheses as of March 31, 2020:

| | Discount rate used | | Inflation rate | | Future salary increase | |
|---|---|---|---|---|---|---|
| Level of Sensitivity | Increase 1% (ThCh$) | Decrease 1% (ThCh$) | Increase 1% (ThCh$) | Decrease 1% (ThCh$) | Increase 1% (ThCh$) | Decrease 1% (ThCh$) |
| Impact on current and non-current of employment benefit obligation | (193,362) | 246,077 | 238,878 | (191,183) | 243,221 | (194,940) |

## 18 - POST-EMPLOYMENT AND OTHER BENEFIT OBLIGATIONS (continued)

### 18.6 Sensitivity analysis (continued)

To evaluate impact, the sensitivity analysis has been determined based on the extrapolation method obtaining reasonable results in terms of the changes in the significant hypotheses used as of March 31, 2020.

In the following table the payments of expected of employment benefit obligation are presented:

| | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|
| During the upcoming 12 month | 1,671,544 | 365,539 |
| Between 2 to 5 years | 1,576,174 | 1,536,000 |
| Between 5 to 10 years | 2,002,671 | 2,005,839 |
| More than 10 years | 245,862 | 2,279,759 |
| **Total Payments Expected** | **5,496,251** | **6,187,137** |

## 19 - EQUITY

### 19.1 Subscribed and paid capital

As of March 31, 2020 and December 31, 2019 authorized, subscribed and paid share capital amounts to ThCh$ 776,355,048.

### 19.2 Number of subscribed and paid shares

| | Number of shares subscribed | Number of shares paid | Number of shares with voting rights |
|---|---|---|---|
| Sole series | 1,000,000 | 1,000,000 | 1,000,000 |

No shares have been issued or redeemed in the years covered by these financial statements.

### 19.3 Dividends

As of March 31, 2020, the company has not distributed or paid dividends.

As of December 31, 2019, the company has distributed provisional dividends charged to the 2019 fiscal year amounting to ThCh$96,218,000, which was paid in full during the year. A first payment was made on July 18, 2019 for an amount of ThCh$32,875,000 and a second payment on September 25, 2019 for an amount of ThCh$30,671,000 and a third payment dated December 17, 2019 for an amount of ThCh$ 32,672,000.

### 19.5 Capital management

Capital management refers to the Company's administration of its equity,

The capital management policy of Transelec S.A. and subsidiary is aimed at maintaining adequate capitalization levels to sustain operations and provide sensible leverage, thus optimizing shareholder returns and maintaining a solid financial position.

Capital requirements are determined based on the Company's financing needs, taking care to maintain an adequate level of liquidity and complying with financial covenants established in current debt contracts, The Company manages its capital structure and makes adjustments based on prevailing economic conditions in order to mitigate risks from adverse market conditions and take advantage of any opportunities that may arise to improve its liquidity position.

The principal financial covenants established in current debt contracts related to capital requirements are:

1) Maintain individual and indebtedness levels (Total debt / Total capitalization ratio) no greater than 0.7 based on the definitions of these terms in the respective prospectuses of local bond series C, D, H, K, M, N and Q.

2) a) Maintain minimum individual and equity of fifteen million UF equivalent to ThCh$428,961,900 as of December 31, 2019. As that term is defined in the respective prospectuses of local bond series C, D, H, K, M and N.

   b) Maintain at all times during the validity period of the bond issuance a minimum Equity of ThCh$350,000,000; as this term is defined in the respective prospectus of local bond Series Q.

The test of distribution of restricted payments (net cash flow of the operations / financial costs) must be greater than 1.5 times, as those terms are defined in the respective prospectuses C,D,H,K,M and N.

## 19 – EQUITY (continued)

### 19.5 Capital management (continued)

The following tables present – as of March 31, 2020 and December 31, 2019 - the calculation of the two covenants mentioned above and also a calculation of a third ratio that the Company has to comply, which does not depend on capital (equity) amount.

| Covenant 1 | Total debt / Total capitalization ratio<br>Lower or equal to 0.70 | March 31, 2020<br>MCh$ | December 31, 2019<br>MCh$ |
|---|---|---|---|
| A | Other financial liabilities, current | 104,958 | 24,892 |
| B | Payables to related parties, current | - | - |

| **Total** | **96,970,329** | **85,168,874** |
| | | |
| Transferred services by a long time | 96,970,329 | 85,168,874 |
| **Total Revenues** | **96,970,329** | **85,168,874** |

**20 – REVENUE (continued)**

### 20.2 Other operating income

The following table details operating income for the three-month periods ended March 31, 2020 and 2019, is as follows:

| | 01.01.2020 03.31.2020 ThCh$ | 01.01.2019 03.31.2019 ThCh$ |
|---|---|---|
| Financial income (Note 21.4) | 3,061,591 | 3,029,163 |
| Other gains (losses), net | 479,777 | 389,046 |
| **Total other operating income** | **3,541,368** | **3,418,209** |

**21 - RELEVANT INCOME STATEMENT ACCOUNTS**

### 21.1 Expenses by nature

The composition of cost of sales and administrative expenses for the three-month periods ended March 31, 2020 and 2019, is as follows:

| | 01.01.2020 03.31.2020 ThCh$ | 01.01.2019 03.31.2019 ThCh$ |
|---|---|---|
| Personnel expenses (Note 21.2) | 5,719,327 | 5,216,031 |
| Operating expenses | 5,773,182 | 4,130,792 |
| Maintenance expenses | 2,286,626 | 1,742,852 |
| Depreciation and write-offs (Note 21.3) | 13,440,579 | 13,519,435 |
| Other | 457,050 | 566,242 |
| **Total** | **27,676,764** | **25,175,352** |

## 21 - RELEVANT INCOME STATEMENT ACCOUNTS (continued)

### 21.2 Personnel expenses

The composition of this item for the three-month periods ended March 31, 2020 and 2019, is as follows:

| | 01.01.2020 03.31.2020 ThCh$ | 01.01.2019 03.31.2019 ThCh$ |
|---|---|---|
| Salaries and wages | 5,369,605 | 4,974,643 |
| Short-term employee benefits | 329,630 | 320,363 |
| Staff severance indemnity | 235,458 | 162,866 |
| Other long-term benefits | 357,878 | 328,857 |
| Other personnel expenses | 1,707,904 | 1,459,258 |
| Expenses capitalized on construction in progress | (2,281,148) | (2,029,956) |
| Total | **5,719,327** | **5,216,031** |

### 21.3 Depreciation and amortization

The detail of this item in the income statement for the three-month periods ended March 31, 2020 and 2019, is as follows:

| | 01.01.2020 03.31.2020 ThCh$ | 01.01.2019 03.31.2019 ThCh$ |
|---|---|---|
| Depreciation | 12,175,518 | 12,439,169 |
| Amortization | 740,874 | 669,875 |
| Amortization (Rights of use) | 417,046 | 392,464 |
| Losses from damages [(1)] | 107,141 | 17,927 |
| **Total** | **13,440,579** | **13,519,435** |

[(1)]The losses for the withdrawal and damages are a replacement of equipment by technical conditions, not significantly affecting the deterioration of the Cash Generating Unit.

**NOTE 21 - RELEVANT INCOME STATEMENT ACCOUNTS (continued)**

### 21.4 Financial results

The detail of the financial result for the three-month periods ended March 31, 2020 and 2019, is as follows:

| | 01.01.2020 03.31.2020 ThCh$ | 01.01.2019 03.31.2019 ThCh$ |
|---|---|---|
| **Financial income:** | **3,061,591** | **3,029,163** |
| Commercial interest earned | 28,345 | 33,572 |
| Bank interest earned | 574,647 | 639,662 |
| Interest earned from related parties | 2,458,599 | 2,355,929 |
| **Financial expenses:** | **(18,998,616)** | **(17,857,740)** |
| Interest on bonds | (16,577,330) | (15,523,071) |
| Interest rate Swap | (2,166,099) | (2,163,198) |
| Other expenses | (255,187) | (171,471) |
| **Gain (loss) from indexation of UF** | **7,718,741** | **(1,203)** |
| **Foreign exchange gains (losses), net** | **76,654** | **183,846** |
| Obligations with public | (105,421,331) | 16,675,909 |
| Intercompany Loan | 26,829,910 | (4,167,070) |
| Financial Instruments | 73,934,390 | (10,685,599) |
| Other | 4,733,685 | (1,639,394) |
| **Total financial result, net** | **(8,141,630)** | **(14,645,934)** |

## 22 - INCOME TAX RESULT

| | 01.01.2020 03.31.2020 ThCh$ | 01.01.2019 03.31.2019 ThCh$ |
|---|---|---|
| Current tax expense | 16,904 | 44,926 |
| **Current tax expense, net, total** | **16,904** | **44,926** |
| Deferred tax expense relating to origination and reversal of temporary differences | 12,847,998 | 12,743,854 |
| **Deferred tax expense, net, total** | **12,847,998** | **12,743,854** |
| **Effect of change in tax situation of the entity or its shareholders** | | |
| **Income tax expense** | **12,864,902** | **12,788,780** |

The following table reconciles income taxes resulting from applying statutory tax rate to the "Profit before Taxes" to the income tax expense recorded in the income statement for the three-month periods ended March 31, 2020 and 2019

| | 01.01.2020 03.31.2020 ThCh$ | 01.01.2019 03.31.2019 ThCh$ |
|---|---|---|
| Tax rate using statutory rate | 12,472,442 | 12,348,891 |
| Price-level restatement of capital | (163,653) | - |
| Price-level restatement of tax loss | 557,306 | - |
| Others differences | (1,193) | 439,889 |
| **Total adjustments to tax expense using statutory rate** | 392,460 | 439,889 |
| **Tax expense using effective tax rate** | **12,864,902** | **12,788,780** |

**22 - INCOME TAX RESULT (continued)**

| | 01.01.2020 03.31.2020 ThCh$ | 01.01.2019 03.31.2019 ThCh$ |
|---|---|---|
| Statutory Tax Rate | 27.00% | 27.00% |
| Price-level restatement of capital | (0.35%) | - |
| Price-level restatement of tax loss | 1.21% | - |
| Others differences | (0.01%) | 0.96% |
| Total adjustments to tax expense using statutory rate | 0.85% | 0.96% |
| Effective tax rate | **27.85%** | **27.96%** |

The tax rate used for the years 2020 and 2019 reconciliations corresponds to 27%, a corporate tax rate that entities should pay on taxable profits based on current tax regulations

**Chilean Tax Reform**

On February 24, 2020, Law 21,210 Modernization of the Tax Legislation was published in the Official Gazette, which is effective as of January 1, 2020, which comes to modify aspects of Business taxation and form finals taxpayers.

This Law repeals the previous Tax Regimes and generates a new unique tax regime called 14 A).

The Transelec Group of Companies changed from regime 14B) as of December 31, 2019 to regime 14A) as of January 1, 2020.

Although the management is evaluating the generality of changes, regarding the change of regimen, it is estimated the effect on the Transelec Group is totally neutral since the tax regime 14B) to which the Group belongs mutated to the New Regime 14A) that works the same way.

## 23 - EARNINGS PER SHARE

Basic earnings per share is calculated by dividing profit attributable to the Company's shareholders by the weighted average number of common shares in circulation during the year excluding, if any, common shares purchased by the Company and maintained as treasury shares.

| Basic Earnings per Share | 01.01.2020 03.31.2020 ThCh$ | 01.01.2019 03.31.2019 ThCh$ |
|---|---|---|
| Profit attributable to equity holders of parent (ThCh$) | 33.329.328 | 32.947.854 |
| Earnings available to common shareholders, basic (ThCh$) | 33.329.328 | 32.947.854 |
| Total basic shares | 1.000.000 | 1.000.000 |
| Basic earnings per share (Ch$) | 33.329 | 32.948 |

There are no transactions or concepts that create a dilutive effect.

## 24 - SEGMENT REPORTING

The Company engages exclusively in providing services related to electricity transmission. To provide such services, they possess assets throughout the country that form the Transelec transmission system, stretching 3,168 kilometers from the Arica y Parinacota Region to the Los Lagos Region.

Electricity transmission service falls under the legal framework that governs the electricity sector in Chile. This framework defines transmission systems and classifies transmission facilities into three categories the national transmission system (former trunk), the zonal system (former subtransmission system) and committed systems (former additional systems), establishing an open access scheme for the first two systems and allowing additional lines that use rights of way and have national assets for public use along their paths to be used by third parties under non-discriminatory technical and economic conditions. The law also sets criteria and procedures for determining compensation that transmission facility owners are entitled to receive.

Transelec's revenue from the national system (former trunk system) consists of the "annual transmission value per segment" (VATT for its Spanish acronym), which is calculated every 4 years based on the "annual investment value" (AVI for its Spanish acronym), plus "operating, maintenance and administrative costs" (COMA for its Spanish acronym) for each segment that forms the national system (former trunk system).

The annual zonal system (former subtransmission system) value (VASTX for its Spanish acronym) is calculated every four years. It is based on the valuation of facilities that are economically adapted to demand and consists of standard investment, maintenance, operating and administrative costs, plus average energy and capacity losses of the adapted facilities.

Revenue from committed systems (former additional system) is established in private contracts with third parties, which are principally generators and users that are not subject to price regulation. The main objective of the committed systems (former additional system) is to enable generators to inject their production into the electricity system and to allow large customers to make withdrawals.

## 24 - SEGMENT REPORTING (CONTINUED)

The law distinguishes between the different systems in order to ensure that tariffs are appropriate for each case, Nevertheless, facilities of a given voltage (220 KV, for example) are identical, whether national (former trunk), Zonal (former subtransmission) or committed (former additional. Thus, a 220 KV facility requires a given type of maintenance, fundamentally because of its geographic location, its proximity to the ocean, the climate, etc., but in no case does this maintenance depend on whether that 220 KV facility is national (former trunk), zonal (former subtransmission) or additional. Thus, for Transelec this classification into national (former trunk), zonal (former subtransmission) or additional systems is merely for tariff purposes and has no other consequences.

The Company's management analyzes its business as a set of transmission assets that enables it to provide services to its customers. As a result, resource allocation and performance measurements are analyzed in aggregate.

Internal management takes into account this classification criterion for revenue and costs merely for descriptive purposes but in no case for business segmentation.

As a result, for the purposes of applying IFRS 8, all of the businesses described above are defined as one sole operating segment for Transelec S.A.

**Information about products and services**

| | 01.01.2020 03.31.2020 ThCh$ | 01.01.2019 03.31.2019 ThCh$ |
|---|---|---|
| Transmission services | 96,970,329 | 85,168,874 |

**Information about sales and principal customers**

Information about the main customers of the Company is contained in note 3.1.2 Credit risk.

## 25 - THIRD-PARTY GUARANTEES, OTHER CONTINGENT ASSETS AND LIABILITIES AND OTHER COMMITMENTS

As of March 31, 2020, the Company has received performance guarantees from contractors and third parties, primarily to guarantee performance of construction and maintenance works, amounting to ThCh$41,101,539 (ThCh$33,869,143 as of December 31, 2019). Also to guarantee the repayment of housing loans, the corresponding mortgages have been established in favor of the Company.

## 26 - DISTRIBUTION OF PERSONNEL

As of March 31, 2020 and December 31, 2019, personnel employed by Transelec S.A. are detailed as follows:

| | March 31, 2020 | | | | |
|---|---|---|---|---|---|
| | Manager and Executives | Professionals and technical personnel | Other employees | Total | Average of the year |
| Total | 16 | 424 | 126 | 566 | 559 |

| | December 31, 2019 | | | | |
|---|---|---|---|---|---|
| | Manager and Executives | Professionals and technical personnel | Other employees | Total | Average of the year |
| Total | 17 | 413 | 132 | 562 | 548 |

## 27 - ENVIRONMENT

Transelec, in compliance with current environmental regulations and in line with its sustainability policy have undergone environmental assessment projects or amendments thereto to the environmental authority through the Environmental Evaluation System (SEIA). To this end, several studies were conducted to substantiate the presentations have allowed environmental documents. These documents are an Environmental Impact Statement (EIS for Spanish acronym) or an environmental impact study concerned, met the requirements of Law No, 19,300 on General Environment, amended by Law No, 20,417, and its regulations of SEIA, For projects that have started their implementation the Company has been following the conditions and measures imposed by environmental authority in the respective resolutions of environmental qualification.

During for the three-month ended March 31, 2020 and 2019, the Company has made the following environmental disbursements:

| Company making disbursement | Project | March 31, 2020 ThCh$ | December 31, 2019 ThCh$ |
|---|---|---|---|
| Transelec S.A. | Environmental management, elaboration of DIA and EIA and the follow up of environmental matters (includes environmental permissions for sectors) | 253,103 | 186,389 |
| **Total** | | **253,103** | **186,389** |

## 28 - ASSETS AND LIABILITIES IN FOREIGN CURRENCY

a) Current assets and liabilities

| Current Assets | Foreign Currency | Functional Currency | March 31, 2020 | | December 31, 2019 | |
|---|---|---|---|---|---|---|
| | | | Maturity less than 90 days | Maturity more than 91 to 1 year | Maturity less than 90 days | Maturity more than 91 to 1 year |
| | | | ThCh$ | ThCh$ | ThCh$ | ThCh$ |
| Cash and cash equivalents | Dollars | CH$ | 85,165,343 | - | 4,021,429 | - |
| | Other Currency | CH$ | 11,356 | - | 252,235 | - |

| Current Liabilities | Foreign Currency | Functional Currency | March 31, 2020 | | December 31, 2019 | |
|---|---|---|---|---|---|---|
| | | | Maturity less than 90 days | Maturity more than 91 to 1 year | Maturity less than 90 days | Maturity more than 91 to 1 year |
| | | | ThCh$ | ThCh$ | ThCh$ | ThCh$ |
| Other financial liabilities, current | Dollars | CH$ | 7,818,808 | 85,225,947 | 19,386,228 | - |

| Non-Current Liabilities | Foreign Currency | Functional Currency | March 31, 2020 | | | December 31, 2019 | | |
|---|---|---|---|---|---|---|---|---|
| | | | 1 to 3 year | 3 to 5 year | More than 5 year | 1 to 3 year | 3 to 5 year | More than 5 year |
| | | | ThCh$ | ThCh$ | ThCh$ | ThCh$ | ThCh$ | ThCh$ |
| Other financial liabilities, non-current | Dollars | CH$ | - | 570,282,275 | 292,392,804 | - | 223,101,284 | 534,642,710 |

## 29. SUBSEQUENT EVENTS

On April 24, 2020, the Ordinary Shareholders meeting of the company was celebrated, where they agreed to distribute a final dividend with debit to 2019 income, in the amount of ThCh$43,852,484, which will be paid during May 2020.

Since March 31, 2020, closing date of these Interim consolidated financial statements and their issuance date, there has been no significant financial and accounting events that may affect the equity of the Company or the interpretation of these Interim consolidated financial statements.

*Management Discussion and Analysis (MD&A) of the Consolidated Financial Statements*

***TRANSELEC S.A AND SUBSIDIARY***

*Santiago, Chile*
*March 31, 2020*

## SUMMARY

As of March 31, 2020, revenues reached MCh$96,970 showing an increase of 13.9% compared to the same period of 2019 (MCh$85,169). The increase is mainly explained by macroeconomic effects, mostly due to USD/CLP exchange rate, services to third parties and commissioning of new projects.

As of March 31, 2020, Transelec obtained an EBITDA[1] of MCh$83,545, a 12.7% higher than the one obtained in the same period of 2019 (MCh$74,134), with an EBITDA Margin[2] of 86.2%. The EBITDA increase is almost totally due to higher Revenues explained above.

The loss in Non-Operating Income as of March 2020 was MCh$23,043, representing a rise of 61.6% compared to the same period of 2019 (MCh$14,257). This rise is mostly explained by the loss in indexed assets and liabilities, which was at minimum levels in 2019, because inflation was null in the first quarter of last year, and to a lesser extent, the rise is explained by higher Financial Costs.

Net Income recorded by the Company as of March 31, 2020, was MCh$33,329, which is 1.2% higher compared to the same period of 2019, in which a Net Income of MCh$32,948 was registered.

In 2020, the Company incorporated US$2.6 million of new facilities, which correspond to the commissioning of an expansion project of the national segment. In addition, in the last twelve months period ended in March 2020, facilities for US$ 32.8 million were incorporated.

[1] EBITDA= Operating Revenues + Operating Fixed Costs + Administration and Sales Fixed Costs + Other Income + Finance Leases Amortization

[2] EBITDA Margin= EBITDA/Revenues

**Relevant events of the period:**

- In January 2020, the international risk rating agency Fitch Ratings ratified Transelec's rating in BBB, Moody's, on the other hand, did so in March 2020, ratifying the classification in Baa1. The local risk rating agency Feller ratified the classification in AA- during January 2020.

- On January 17th, the Superintendency of Electricity and Fuels (SEC) notified a penalty to Transelec for failure on the 220kV Cóndores - Parinacota line for US$4.8 million. The failure was caused by the cut of a conductor that left the Arica zone without electricity for 21 hours. Transelec filed releases and an administrative complaint (still pending).

- According to the transmission law of 2016 as of January 2020, the rate of return on assets should fall from 10% before taxes to 7% after taxes, but because the tariff study to determine the remuneration of the transmission in the period 2020 – 2023 (valuation process) is delayed, the regulator (CNE) through resolution 815, has determined to stabilize the transmission rates until the rate study is complete (estimated within 2021), in order to advance the estimated reduction and not apply rises that are later reversed.

- In March 2020, Transelec drew from its committed credit line an amount of US$ 100,0 million. The objective is to strengthen our liquidity position to face the health crisis (Covid-19).

## 1- INCOME STATEMENT ANALYSIS

| ITEMS | March 2020 MCh$ | March 2019 MCh$ | Variation 2020/2019 MCh$ | Variation 2020/2019 % |
|---|---|---|---|---|
| **Revenues** | **96,970** | **85,169** | **11,801** | **13.9%** |

[1] EBITDA= Operating Revenues + Operating Fixed Costs + Administration and Sales Fixed Costs + Other Income + Finance Leases Amortization

[2] EBITDA Margin= EBITDA/Revenues

### a) Operating Income

During 2020, Revenues reached MCh$96,970 increasing a 13.9% compared to the same period of 2019 (MCh$85,169). Given the delay in the 2020-2023 tariff study, Revenues for the quarter were recognized according to the decrees in force by the end of 2019. The increase in Revenues is explained by higher revenues from Toll Sales which as of March 2020, reached MCh$93,681 a 12.1% higher than the obtained in the same period of 2019 (MCh$83,576). The Services revenues as of March 31, 2020 reached MCh$3,289, a 106.4% higher than the same period of 2019 (MCh$1,593), mostly explained by construction services to third parties.

The increase in Toll Sales Revenues is explained by an increase of MCh$7,280 in the National segment, MCh$2,013 in the Zonal segment and MCh$813 in the Dedicated segment.

As a whole, the increase in Revenues is mainly explained by macroeconomic effects for MCh$11,626, mainly associated with exchange rate, and new revenues in 2020 of projects commissioned in last 12 months for MCh$1,144.

Total Transelec Operational Costs and Expenses as of March 31, 2020 were MCh$27,677, a 9.9% higher than the comparison period in 2019 that reached MCh$25,175. Total Costs and Expenses are composed by the following main items.

Cost of sales during the analysis period totaled MCh$7,719, a 13.0% higher than the same period of 2019 (MCh$6,832). The increase is mainly explained by advances in maintenance due to precaution associated with the health emergency and higher insurance premiums.

Administrative Expenses amounted to MCh$6,517 in March 2020, 35.1% higher than those obtained in the same period in 2019 (MCh$4,824). The increase is mainly explained by fine provision.

Total Depreciation and Amortization as of March 31, 2020 reached MCh$13.441, a 0,6% lower than the same period in 2019 (MCh$13,519). The decrease is mainly explained by lower depreciation associated with the review of useful life carried out in 2019, partially offset by higher depreciation due to equipment renewal and the commissioning of new projects.

**b) Non-Operating Income**

The Non-Operating Income of the first quarter of the year 2020 was a loss of MCh$23,043, a 61.6% higher than the same period of 2019 (MCh$14,257). It is mainly explained by losses for indexed assets and liabilities, which were at minimum levels in 2019. Also, this is partially offset by higher Financial Costs.

Financial Income registered as of March 2020 reached MCh$3,062, staying similar to what was recorded in the same period of 2019 (MCh$3,029).

The exchange differences as of March 2020 reached MCh$77, while during the first quarter of 2019, the balance was MCh$184. The Foreign Exchange Differences keep controlled, associated with the hedging policy of our balance sheet.

The loss for Indexed Assets and Liabilities was MCh$7,719 as of March 31, 2020. The loss in the same period of 2019 was MCh$1. This is mainly explained by the revaluation of the local debt denominated in UF due to the variation in the value of the UF which for the first quarter of 2020 corresponds to 1.02% compared to 0.00% for the first quarter of 2019, since in that period there was no inflation registered.

The Financial Costs registered to March 2020 amounted to MCh$18,943, increasing by 6.1% compared to the same period of 2019 (MCh$17,858). The increase is mainly due to higher interest payments on USD and UF bonds, since the average exchange rate for the first quarter of 2020 increased by 20.36% compared to the same period in 2019, likewise, the average UF value of 2020 increased by 3.12% compared to the previous year.

Other Income, as of March 2020, were MCh$480, 23.3% higher than the same period of 2019 (MCh$389). As of March 31, 2020, the result is explained by accounting regularization of historical items. As of March 31, 2019, the gain is mainly explained by regularizations with suppliers.

**c) Income tax**

Income Tax as of March 31, 2020 was MCh$12,921, increasing by 1.0% in relation to the same period of 2019 (MCh$12,789). The increase is mainly due to higher Income before Taxes.

## 2. BALANCE SHEET ANALYSIS

| ITEMS | March 2020 MCh$ | December 2019 MCh$ | Variation 2020/2019 MCh$ | Variation 2020/2019 % |
|---|---|---|---|---|
| Current assets | 356,724 | 222,198 | 134,526 | 60.5% |
| Non-current assets | 2,505,520 | 2,390,537 | 114,983 | 4.8% |
| **Total Assets** | **2,862,244** | **2,612,735** | **249,509** | **9.5%** |
| Current liabilities | 143,876 | 64,758 | 79,118 | 122.2% |
| Non current liabilities | 1,828,492 | 1,701,027 | 127,465 | 7.5% |
| Equity | 889,877 | 846,950 | 42,927 | 5.1% |
| **Total Liabilities & Equity** | **2,862,244** | **2,612,735** | **249,509** | **9.5%** |

The increase in Assets between December 2019 and March 2020 is explained both by an increase in Non-Current Assets and Current Assets. The increase in Non-Current Assets is mostly due to an increase in financial assets associated to hedging agreements and a higher balance in property, plant and equipment. While higher Current Assets are mainly due to a higher cash balance associated mostly with the Revolving Credit Facility used in the period, which is kept entirely in cash.

The increase in Liabilities and Equity is due to an increase in all the items that make up this balance sheet. The increase in Current Liabilities is mainly due to the liability acquired by the use of the Revolving Credit Facility line (MCh$ 100.0). The rise in Non-Current Liabilities is mainly due to the valuation of debt in foreign currency. The increase in Equity is mainly due to higher accumulated earnings.

### Value of the Main PP&E in Operation

| ASSETS | March 2020 MCh$ | December 2019 MCh$ | Variation 2020/2019 MCh$ | Variation 2020/2019 % |
|---|---|---|---|---|
| Land | 20,984 | 20,984 | 0 | 0.0% |
| Building, Infraestucture, works in progress | 1,210,630 | 1,210,139 | 491 | 0.0% |
| Work in progress | 169,187 | 135,552 | 33,635 | 24.8% |
| Machinery and equipment | 728,297 | 726,472 | 1,825 | 0.3% |
| Other fixed assets | 5,921 | 5,932 | -11 | -0.2% |
| Right of use | 6,721 | 6,721 | 0 | 0.0% |
| Depreciation (less) | -574,641 | -562,466 | -12,175 | -2.2% |
| **Total** | **2,141,739** | **2,105,801** | **35,938** | **1.7%** |

## Current Debt

| Debt | Currency or index | Interest rate | Type of rate | Maturity Date | Amount in original currency (million) (unpaid capital) March 2020 | Amount in original currency (million) (unpaid capital) December 2019 |
|---|---|---|---|---|---|---|
| Series D bond | UF | 4.25% | Fixed | 15-Dec-27 | 13.50 | 13.50 |
| Series H bond | UF | 4.80% | Fixed | 01-Aug-31 | 3.00 | 3.00 |
| Series K bond | UF | 4.60% | Fixed | 01-Sep-31 | 1.60 | 1.60 |
| Series M bond | UF | 4.05% | Fixed | 15-Jun-32 | 3.40 | 3.40 |
| Series N bond | UF | 3.95% | Fixed | 15-Dec-38 | 3.00 | 3.00 |
| Series Q bond | UF | 3.95% | Fixed | 15-Oct-42 | 3.10 | 3.10 |
| Series Senior Notes bond @2023 | USD | 4.625% | Fixed | 26-Jul-23 | 300.00 | 300.00 |
| Series Senior Notes bond @2025 | USD | 4.25% | Fixed | 14-Jan-25 | 375.00 | 375.00 |
| Series Senior Notes bond @2029 | USD | 3.875% | Fixed | 12-Jan-29 | 350.00 | 350.00 |
| Revolving Credit Facility[1] | USD | 2.44% | Floating | 03-Aug-20 | 100.00 | - |
| Revolving Credit Facility[1] | UF | 0.35% | Fixed | 03-Aug-20 | - | - |

[1] Revolving Credit Facility: USD Tranche MM US$150: The floating rate of 2.4403% breaks down in 3 months Libor rate plus a margin of 1.25%. At March 31, 2020, the Company drew this line for an amount of US$ 100.00 million. The difference pays a fixed commission of 0.4375% per annum of the committed amount undrawn.

[2] Revolving Credit Facility: UF Tranche MM UF$2.5: The floating rate of 0.35% breaks down in TAB UF 180 rate plus a margin of 0.25%. At March 31, 2020, the Company did not utilize this line therefore does not pay interest of 0.35% and currently is paying a fixed commission of 0.15% per annum of the committed amount undrawn.

Although increases in inflation may have an impact on the costs of debt denominated in UF and therefore on the Company's finance expenses, these impacts are slightly lessened by Revenues indexed to inflation.

## 3. CASH FLOWS ANALYSIS

| ITEMS | March 2020 MM$ | March 2019 MM$ | Variation 2020/2019 MM$ | Variation 2020/2019 % |
|---|---|---|---|---|
| Cash flows provided by (used in) operating activities | 38,276 | 31,353 | 6,923 | 22.1% |
| Cash flows provided by (used in) investing activities | -8,344 | -21,910 | 13,566 | 61.9% |
| Cash flows provided by (used in) financing activities | 83,275 | -341 | 83,616 | N/A |
| **Net increase (decrease) of cash and cash equivalent** | **113,207** | **9,101** | **104,106** | **1143.9%** |
| Cash and cash equivalent at the begining of the period | 108,642 | 104,059 | 4,583 | 4.4% |
| **Cash and cash equivalent at the end of the period** | **221,849** | **113,160** | **108,689** | **96.0%** |

As of March 31, 2020, cash flow from activities of the operation reached MCh$38,276, which increased by 22.1% compared to the same period of 2019 (MCh$31,353). The increase is due to higher payments from customers.

During the same period, the cash flow used in investment activities was MCh$8,344, a 61.9% higher than the amount allocated as of March 31, 2019 (MCh$21,910). The increase is mainly explained by loan collections from related entities and the fact that in 2020 no additional loans were made. This is offset by higher investments in Property, Plant and Equipment.

As of March 2020 the cash flow used in financing activities was MCh$83,605 which corresponds almost totally to the line of credit. As of March 2019, the cash flows used in financing activities corresponds to the implementation of IFRS 16.

As of March 31, 2020 the company has the following committed credit line (Revolving Credit Facility) to ensure the immediate availability of funds to cover working capital needs:

| Bank | Amount (up to) | Maturity | Type of Credit |
|---|---|---|---|
| Scotiabank, Bank of Tokyo-Mitsubishi, DnB NOR and Export Development Canada | US$150,000,000 | 03-Aug-2020 | Working Capital |
| Scotiabank and Banco Estado | UF$2,500,000 | 03-Aug-2020 | Working Capital |

## 4. INDICATORS

Financial restrictions contained in local debt agreements are presented in the next table:

| Covenants | Debt Contract | Limit | March 2020 | December 2019 |
|---|---|---|---|---|
| Capitalization Ratio[1] | All local Bonds | < 0.70 | 0.66 | 0.64 |
| Shareholder's Equity[1] MMUF | D, H, K, M and N local Bonds | > 15.00 | 31.99 | 30.80 |
| Shareholder's Equity[1] MCh$ | Q local Bond and Revolving Credit Facility | > 350,000 | 914,846 | 871,920 |
| Net Debt/Ebitda | Revolving Credit Facility | <= 7,0x | 4.52 | 4.41 |

| Test | Bonds | Limit | March 2020 | December 2019 |
|---|---|---|---|---|
| Distribution Test[2] FNO[3]/Financial Expenses | D, H, K, M and N local Series | > 1.50 | 4.73 | 4.69 |

[1]Equity= Total equity attributable to owners of the parent plus accumulated amortization of Goodwill. The accumulated amortization of Goodwill between June 30, 2006 and March 31, 2020 amounted to MCh$24.970.

[2]Test to distribute restricted payments such as dividends.

[3]FNO= Cash flow from operating activities plus the absolute value of finance costs, plus the absolute value of the expenditure for Income Taxes.

Rates of profitability, liquidity and indebtedness of the company are presented in the next table:

| RATIOS | | March 2020 | December 2019 | Variation 2020/2019 |
|---|---|---|---|---|
| **Profitability[1]** | | | | |
| Shareholders' Equity profitability[2] | (%) | 15.8% | 16.6% | -80 pbs |
| Assets profitability[3] | (%) | 4.9% | 5.4% | -50 pbs |
| Operating assets profitability[4] | (%) | 6.6% | 6.7% | -10 pbs |
| Earnings per share[5] | ($) | 140,993 | 140,612 | 0.3% |
| **Liquidity & Indebtedness** | | | | |
| Current Ratio | (times) | 2.48 | 3.43 | -27.7% |
| Acid-Test Ratio | (times) | 2.48 | 3.43 | -27.7% |
| Debt to Equity | (times) | 2.22 | 2.08 | 6.7% |
| Short term debt/Total debt | (%) | 7.3% | 3.7% | 360 pbs |
| Log term debt/Total debt | (%) | 92.7% | 96.3% | -360 pbs |
| Financial expenses coverage | (times) | 4.41 | 4.48 | -1.6% |

[1] Profitability ratios are presented under last twelve months criteria.

[2] Shareholders' Equity profitability is calculated as Net Income over Equity.

[3] Assets profitability is calculated as Net Income over Total Assets.

[4] Operating assets profitability is calculated as Net Income over total value of the Main Pp&E.

[5] Earnings per share is calculated as Net Income over total shares.

## 5. THE TRANSMISION MARKET

### 5.1. The transmission activity and its regulation

Transelec develops its activities in Chile in the electricity market, which has been divided into three sectors: generation, transmission and distribution. The generation sector includes companies that are dedicated to produce electricity that will subsequently be used throughout the country by end users. The purpose of the distribution sector is to carry electricity to the physical location where each end user will use this electricity. Finally, the primary goal of the transmission sector (the only sector in which it participates Transelec) is to transport the generated electricity from where it is produced (electrical power plants) to the 'points of entry' of the distribution companies' networks or of the large end users.

The transmission system of Transelec which stretches between 'Arica y Parinacota' Regions to 'Los Lagos' Region, encompasses the majority of the transmission lines and substations in the National Electrical System. This transmission system transports the electricity that supplies approximately 98.5% of Chile's population. The Company owns the 35% of all of the 500 kV electricity transport lines, 40% of the 220 kV lines, 83% of the 154 kV lines and 10% of the 110kV and 66kV lines.

The legal framework that governs the electrical transmission business in Chile is contained in DFL No. 4/2006, which establishes the modified, coordinated and systemized text of Decree with Force of Law No. 1 from the Ministry of Mining, issued in 1982; and the General Electricity Services Law. (DFL No. 1/82) and its subsequent modifications, including Law 19,940 ('Ley Corta I') published on March 13, 2004, and the Law 20.936 issued on July 20, 2016, which stablishes a new electric transmission system and creates an independent coordinator of the National Electric System. Additionally, those who explodes and operates transmission facilities must follow at every time the Technical Standard on Reliability and Service Quality (Exempt Resolution No. 299 of April 26, 2018).

The last reform to the LGSE for the Transmission segment was the enactment of Law 20.936 / 2016, which introduced the following relevant modifications:

- A single Coordinator of the National Electric System independent of the market players, replacing the Economic Load Dispatch Centers.
- The redefinition of the transmission systems qualifying them as the National Transmission System (formerly trunk), the Zonal Transmission Systems (formerly sub-transmission), the Dedicated Systems (formerly additional), and will incorporate two new segments: Transmission Systems for Development Poles and International Interconnection Systems. Further.
- The incorporation of energy and transmission planning with a long-term horizon, which considers gaps in the systems and where it seeks to achieve a more robust and secure system.
- Preliminary definition of routes for new works, through a procedure of Strip Study by the Ministry for electrical transmission routes of public interest.
- Universal open access to regulated Transmission Systems and dedicated Transmission Systems when technical capacity is available.
- Regulates the pricing of National, Zonal Transmission Systems for Development Poles and payment for use of Dedicated Transmission System facilities by users subject to price regulation, among other matters.

Transelec's business is focused on the economic retribution that can obtain for tolls by use of the transport and transformation capacity of its facilities, aligned to the security and quality service standards. Transelec has the right to annually receive the annual transmission value (VATT) for its facilities belonging to the National and Zonal Transmission Systems, defined in the tariff processes

or in the Decree for the award of expansion works, as the case may be. In the case of the installations of the Dedicated Transmission System, Transelec agrees private transport contracts with the respective users, to define the payment for the use of this type of facilities.

### 5.2. Valuation and pricing of facilities

Prices associated to transmission activity are determined by the Commission every four years by conducting internationally tendered studies, and processes that include the participation of companies, users and interested institutions and the Panel of Experts in the event of any discrepancies.

Pricing of the existing facilities recognizes the efficient acquisition and installation costs according to market values, which are annualized considering the assets life determined every three tariff periods and whit a variable discount rate, which will not be less than 7% or higher than 10%. The owners of regulated transmission facilities must receive the Annual Transmission Value from the sum of the real tariff revenues and a single charge associated to each segment and applied directly to end users.

During 2014 and 2015 were developed the third trunk facilities tariff process in order to determinate the tariffs and indexation formulas corresponding to the period 2016 - 2019, that were fixed by Decree N° 23T by the Minister of Energy on February 3, 2016 and its application is retroactive from January 1, 2016. These regulations established the trunk transmission facilities and the new Investment Values (VI), the Annuity of the Investment Value (AVI) and the Operating, Maintenance and Administration Costs (COMA), plus the VATT of the trunk facilities, and the Indexation formulas applicable during that period.

The Transmission Law establishes a new payment regime for using national facilities that would become effective as of January 1, 2019 starting on that date and a transitory period that will extend until December 31, 2034, period during which the payments of the generating companies for the associated use to the supply agreements for free and regulated customers, concluded prior to the publication of enactment of this new law, will apply the same general rules for calculating the payment of the trunk transmission with some adjustments. These resulting injections tolls will be reduced year by year and the payment of the corresponding amounts will be transferred to a single charge of transmission paid by the demand.

In relation to the Zonal transmission system facilities (previously subtransmission), on April 9, 2013, the Supreme Decree No. 14 was published by the Ministry of Energy, setting subtransmission tariffs from January 2011 to December 2014. The difference between invoiced amounts using these provisional tariffs since January 2011 until the publishing date of this decree were reassessed by the CDEC based on the difference between the provisional tariff and the definitive values established by Decree No. 14. According to what is indicated in the transitory third article of Law 20,805 published on January 29, 2015, and to what is established in the Decree No. 7T of April 22, 2015, the validity of the Decree No. 121/2010, which fixes the tariffs of subtransmission facilities, and of the Exempt Decree No. 14/2013, which fixes the qualification of subtransmission facilities, is extended until December 31, 2015.

In accordance with the provisions of the eleventh transitory article of the Transmission Law, during the period between the January 1, 2016 and December 31, 2017, remain in force Decree No. 14 and subtransmission tariffs, excluding payment corresponding to the generating companies. The Ministry of Energy issued on May 27, 2017 the 1T Decree where the Decree No. 14 adjustments were defined to implement the exemption from power plants and for harmonious and consistent implementation with the application decree 23T. Because of this the subtransmission revenues that have been collected since is 1 January 2016 were reassessed under the provisions containing the decree.

On the other hand, in accordance with the provisions of the twelfth article of the Transmission Law, during the period of the extended term of Decree 14 or Decree 1T, continuity and termination of the process of setting the new subtransmission rates were given which will have valid from January 1, 2018 to December 31, 2019. Thus, on July 19, 2018, the CNE published Exempt Resolution No. 531 which replaces the technical report that defines the VATT of the Zonal Transmission Systems and the proportion of use of the dedicated transmission of users subject to price regulation in the 2018-2019 biennium, approved through CNE Exempt Resolution No. 414 of July 31, 2017, in accordance with the provisions of the new Transmission Law. This technical report served as the basis for the enactment of Decree 6T, published in the official gazette on October 5, 2018, which establishes annual value per tranche of the zonal and dedicated transmission facilities used by users subject to price regulation, their rates and indexation formulas for the 2018-2019 biennium.

Through Exempt Resolution No. 815 of December 26, 2019, the CNE established that, from January 2020 and until such time as the final values that are established in the valorization decree of the facilities of National and Zonal transmission corresponding to the 2020-2023 four-year period, the Commission will fix the single charges for the use of the transmission based on those established in the semi-annual resolution in force in the second half of 2019 (stabilization of Transmission Charges). For the above, the CNE took into consideration that: i) the process of valorization of the transmission facilities that is currently underway will have a validity (retroactive) to January 1, 2020, and ii) that in said process a relevant reduction of charges, among other reasons, due to the decrease in the discount rate calculated in accordance with the provisions of article 118 of the General Law of Electric Services. In accordance with the provisions of Exempt Resolution No. 815, the CNE decided to make these adjustments to the charges transferable to final customers “in order to preserve the principle of procedural economy established in Article 9 of Law No. 19,880, according to the which, the Administration must respond to the maximum economy of means effectively, avoiding delaying procedures ", since not doing it" the charges to the final clients should suffer an increase, to later originate a reduction, giving rise to re-liquidations when they come into force the new process of valorization ”. The CNE indicates that the above has the final objective of reducing the risk of affectation to end customers. Once the valorization decree for the period 2020-2023 has been published, the re-liquidations established in article 113 of the Law must be carried out and, therefore, the companies that own the transmission facilities will receive the remuneration (VATT) in accordance with the provisions of Article 114 of the same, in order to ensure that the transmission companies receive an annual value of the transmission per section (VATT) that constitutes the total of their remuneration.

Finally, in the face of the state of catastrophe due to COVID19, a series of initiatives have been presented in the Chamber of Deputies and the Senate that seek to prohibit the cut of basic services due to default and postpone payment for these services to the most vulnerable clients over time. May this exceptional situation last. In the case of the Senate initiative, it also seeks to make the benefit applicable to an even broader universe than the House proposal, since it not only focuses on the most vulnerable 40% of the population, but also extends it to anyone who cannot pay for the service. In the case of the electricity sector, these initiatives directly affect distribution companies with financial costs due to deferred payments, however, in practice it could affect the payment chain with the rest of the agents in the sector: generating companies and companies. transmitters.

## 6. MARKET RISK FACTORS

Due to the characteristics of the Chilean electricity market and strict standards regulating the sector, Transelec S.A. is not exposed to substantial risk in the course of operating its main line of business.

Transelec manages its risks through a corporate program, including the vision and information from the board of directors and employees in direct contact with the risks, with in the company strategy,

workshops are utilized to analyzed past and potential risks. Carrying out concrete actions to prevent and / or mitigate them, to lower their probability of occurrence or its impact.

At project level, the company develop the process of Stages and Decisions, which ensures that projects are guided by stablished protocols from develop of a business idea, going through the proposal presentation, adjudication and later construction or acquisition, even its launch, to ensure that the decision makers have the necessary information available and mitigate the risks in the different parts of the projects.

The main risks of the company are presented and discussed quarterly in the Board of Directors. However, the following risk factors should be mentioned and taken into consideration:

### 6.1. Regulatory Framework

Power transmission tariffs are established by law and include readjustments in order to guarantee actual annual profitability for operators. The nature of this industry means that power transmission company revenue is stable over the long term. This revenue is complemented by revenue from private contracts with large customers.

However, the fact that these tariffs are revised once every four years in the National and Zonal Power Transmission Studies could mean new tariffs that could be detrimental or less attractive for the Company in terms of investment made.

### 6.2. Operating Risks

Although the Company's management believes it has adequate risk coverage, in line with industry practices, it cannot guarantee the sufficiency of its insurance policy coverage for certain operating risks to which it is exposed, including forces of nature, damages to transmission facilities, on-the-job accidents and equipment failure. Any of these events could negatively affect the Company's financial statements.

### 6.3. Environmental Institutionalism and the Application of Environmental Standards and/or Policies

Transelec projects are subject to Law N° 19,300/1994 on General Environmental Guidelines ("Environmental Law") and its subsequent amendments. Transelec may run the risk of environmental permit lobbying taking longer than expected, which would delay project construction and open the possibility of fines being applied.

### 6.4. Construction Delays for New Transmission Facilities

Success of the upgrades and expansion program for the power transmission network will depend on several factors, including the cost and availability of financing. Although Transelec has experience with large-scale construction projects, the construction of new facilities could be hampered by factors commonly associated with projects, including delays for the approval of regulatory authorizations such as power concessions, lack of equipment, materials or labor, or price variation, adverse weather conditions, natural disasters or unforeseen circumstances or difficulties when it comes to taking out loans under favorable conditions and at reasonable rates. Any of the aforementioned factors could lead to delays in the partial or total completion of the capital investment program, while increasing the cost of the projects considered in this program.

### 6.5. Technological Changes

Transelec is compensated for investments that makes in electrical transmission facilities through an annual valuation of the existing facilities (AVI), which is performed every four years using current market prices. Any significant technological advance in the equipment that are part of Transelec' facilities could lower this valuation, which would prevent partial recovery of the investments made.

### 6.6. Foreign Exchange Risk

Transelec has Chilean peso as its functional currency, therefore the following factors expose Transelec to foreign exchange risk:

- Transactions in U.S. dollars (construction contracts, import purchases, etc.).
- Leasing contracts that generate income indexed to US dollars.
- Accounts payables in US dollars associated to debt issued in U.S. America.
- Accounts receivables in US dollars associated to intercompany loans.
- Cross Currency Swap contracts that compensates the risks of exchange rates on the international issuances.

Exchange rate exposure is managed using a policy that involves fully hedging the Company's net balance sheet exposure using diverse instruments such as foreign exchange forward contracts and cross currency swaps.

The following table details the amounts of monetary assets and liabilities denominated into dollar and Chilean pesos in the periods indicated below:

| | March 2020 | | December 2019 | |
|---|---|---|---|---|
| **In million pesos** | **Assets** | **Liabilities** | **Assets** | **Liabilities** |
| Dollar (amounts associated with balance sheet items) | 952,780 | 954,593 | 773,997 | 774,341 |
| Chilean peso | 1,906,515 | 1,904,703 | 1,596,884 | 1,596,539 |

Below are the exchange rates (Observed Dollar) in Chilean pesos to the United States dollar; in the periods indicated.

| MONTH | Average 2020 ($) | Last Day 2020 ($) | Average 2019 ($) | Last Day 2019 ($) |
|---|---|---|---|---|
| January | 772.65 | 799.11 | 677.06 | 657.81 |
| February | 796.38 | 818.32 | 656.30 | 651.79 |
| March | 839.38 | 852.03 | 667.68 | 678.53 |
| **Average of the period** | **802.80** | **823.15** | **667.01** | **662.71** |

The income that Transelec is entitled to receive for its facilities belonging to the national and zonal transmission systems (VATT) and for the installations of the dedicated systems (toll contracts), are indexed in order to maintain their real values during the period of validity of these rates or tolls. These revenues are expressed in accordance with their base value, in dollars, and are updated according to components whose cost variation over time correlates with national or international economic indicators, considering the availability and stability of the source that issues it.

### 6.7. Credit Risk

Credit risk corresponding to receivables from commercial activities, is historically very limited in the industry given the nature of the stable regulatory framework, and the business of the Company's customers, which also have excellent credit level; and the short term payment of customers, which does not accumulate significant amounts.

| BILLING | March 2020 MM$ | March 2020 % | March 2019 MM$ | March 2019 % |
|---|---|---|---|---|
| Enel Group | 27,397 | 28.3% | 28,772 | 33.8% |
| CGE Group | 15,744 | 16.2% | 9,741 | 11.4% |
| AES Gener Group | 9,662 | 10.0% | 10,669 | 12.5% |
| Colbún Group | 7,581 | 7.8% | 13,630 | 16.0% |
| Engie Group | 6,527 | 6.7% | 3,740 | 4.4% |
| Others | 30,059 | 31.0% | 18,617 | 21.9% |
| **Total** | **96,970** | | **85,169** | |
| **% Concentration** | **69.00%** | | **78.14%** | |

As of March 31, 2020, the Company has five main clients which represent individually between 6.7% and 28.3% of total revenues. These are Enel Group (MCh$27,397), CGE Group (MCh$15,744), AES Gener Group (MCh$9,662), Colbún Group (MCh$7,581) and Engie Group (MCh$6,527). The total sum of these main customers corresponds to an 69.00% of the total income of the Company. In the same period of 2019, the Company had a similar structure of clients, whose revenues reached to MCh$28,772, MCh$9,741, MCh$10,669, MCh$13,630 and MCh$3,740 respectively, with a percentage of total incomes of 78.14%.

The toll agreements signed with these clients, including its subsidiaries, will generate a large part of the Company's future cash flows and, therefore, a substantial change in their assets, financial condition and/or operating income could negatively affect the Company. This risk is compensated by the excellent credit level of these clients, together with the "take or pay" type of payment of the Transelec transmission income.

In terms of the Company's credit risk associated with financial assets (time deposits, fixed-return mutual funds and sell-back agreements), its treasury policy establishes certain limits on a particular institution's exposure; such limits depend on the risk rating and capital of each institution. Likewise, for investments in mutual funds, only funds with a risk rating qualify.

### 6.8. Liquidity Risk

Liquidity risk is the risk of the Company not satisfying a need for cash or debt payment upon maturity. Liquidity risk also includes the risk of not being able to liquidate assets in a timely manner at a reasonable price.

a) Risk associated to Company's Management

In order to guarantee that Transelec is able to quickly react financially to investment opportunities and pay its obligations by their maturity dates, in addition to its cash balances and short-term receivables, the Company has committed line of credit for working capital of approximately US$234 million. On March 27, 2020 Transelec used the line on US$100.00 million due to the COVID19 contingency leaving unused and available an amount equivalent to MCh$114,095,150. This

committed line of credit was contracted on July 9, 2012, being renegotiated in 2014 and 2017. The last renovation was on August 03, 2017 maintains the total amount, but it includes a local tranche and a USD tranche with other improvements. Is granted for a period of three years by a bank syndicate consisting of Scotiabank, Bank of Tokyo-Mitsubishi, EDC DnB NOR and Banco Estado. This line does not include any material clause of adverse change.

The Company is exposed to risks associated with indebtedness, including refinancing risk when its debt matures. These risks are mitigated by using long-term debt and appropriately structuring maturities over time.

The following table presents the capital amortizations corresponding to the Company's financial liabilities, according to their maturity date, as of March 31, 2020 and December 31, 2019.

| Debt Maturity (capital and interests) MCh$ | 0 to 1 year | 1 to 3 years | 3 to 5 years | 5 to 10 years | More than 10 years | Total |
|---|---|---|---|---|---|---|
| March 31, 2020 | 155,293 | 140,135 | 697,522 | 863,578 | 497,484 | 2,354,013 |
| December 31, 2019 | 65,254 | 130,509 | 344,742 | 1,108,425 | 495,527 | 2,144,457 |

b) Associated risk to the settlement of trunk transmission system tariff revenues

According to Decree N°4/20,018 from the Ministry of Economy, Fomentation and Reconstruction, in its articles 81, 101, 104 and 106, and complementary rules, Transelec has the right to perceive on a provisory basis the real tariff income (IT for its name in Spanish) of the Sistema Nacional (Ex Troncal) generated for every period.

In order to get their own revenues set up in the first paragraph of article N°101 of the above mentioned Decree N°4/20.018, the real tariff income perceived on a provisory basis must be settled by Transelec according to the repayment schedule prepared by the respective CEN (National Electrical Coordinator) through the collection or payment to the different companies, owners of generation facilities.

Transelec could face the risk of not timely collecting the IT that some of the companies owners of generation facilities should pay as determined in the energy balances prepared by CEN, what may temporarily affect the Company's liquidity position. In this sense, and in the opinion of the Company, the "clearing house" function that Transelec fulfills in the above-mentioned collection process, consists not of the collection of amounts for its own benefit, but it is merely collection and subsequent transfers to third parties of credits and debts that belong to the generating companies, with the exception of the expected IT.

### 6.9. Interest Rate Risks

Significant changes in fair values and future cash flows of financial instruments that can be directly attributable to interest rate risks include changes in the net proceeds from financial instruments whose cash flows are determined in reference to floating interest rates and changes in the value of financial instruments with fixed cash flows.

The Company's assets are primarily fixed and long-lived intangible assets. Consequently, financial liabilities used to finance such assets consist primarily of long-term liabilities at fixed rates. This debt is recorded in the balance sheet at amortized cost.

The objective of interest rate risk management is to achieve a balanced debt structure, decrease the impact on costs due to interest rate variations and, reduce volatility in the income statement.

All the debt as of March 31, 2020, and as of December 31, 2019, was at a fixed rate, with the exception of the amount drawn on the committed line, which is at a variable rate. However, in the case of UF indexed debt, variations in inflation rates could potentially affect the Company's financial expenses.

**UF Values**

| MONTH | Average 2020 ($) | Last Day 2020 ($) | Average 2019 ($) | Last Day 2019 ($) |
|---|---|---|---|---|
| January | 28,324.55 | 28,338.25 | 27,558.53 | 27,546.22 |
| February | 28,387.75 | 28,463.67 | 27,546.04 | 27,556.90 |
| March | 28,539.73 | 28,597.46 | 27,564.62 | 27,565.76 |
| **Average of the period** | **28,417.34** | **28,466.46** | **27,556.39** | **27,556.29** |

### 6.10. Other Risks

In addition to the aforementioned, the company faces other risks such as cybersecurity, legal, market, counterpart and reputational risks.

### Subsequent Events:

On April 24, 2020, the Ordinary Shareholders meeting of the company was celebrated, where they agreed to distribute a 2019 final dividend, amounting of ThCh$43,852,484, which will be paid during May 2020.

Since March 31, 2020, closing date of these Interim consolidated financial statements and their issuance date, there has been no significant financial and accounting events that may affect the equity of the Company or the interpretation of these Interim consolidated financial statements.

**RELEVANT CONSOLIDATED FACTS**

**TRANSELEC S.A.**

## RELEVANT FACTS

1) In conformity with Article 9 and paragraph 2 of Stock Market Law N° 18,045 Article 10 and General Standard N° 30 issued by the Securities and Insurance Commission, presently the Commission for the Financial Market, the following relevant fact was reported 15 January 2019, that Mr. Paul Dufresne announced his resignation from the position of director to the Chairman of the Transelec S.A Board of Directors. In addition, it was also announced by the same action that the Board of Directors had agreed to suspend temporary dividends corresponding to the 2018 fiscal year.

2) In compliance with Article 9 and paragraph 2 of Stock Market Law N° 18,045 Article 10 and General Standard N° 30, the following relevant fact was reported 21 March 2019, that at a Transelec S.A. Board of Directors meeting held that same date, Mr. Jean Daigneault announced his resignation from the position of Deputy Director for Mr. Paul Dufresne to the Chairman of the Transelec S.A. Board of Directors. In virtue of the foregoing, Mr. Richard Cacchione was appointed to the position of alternate director at the same meeting.

3) In compliance with the provisions of Article 9 and the second paragraph of Stock Market Law Nº 18,045 Article 10, the following relevant fact was reported 21 March 2019:

   At a meeting held 21 March 2019, the Transelec S.A. Board of Directors agreed to announce the notice of a shareholders meeting 26 April 2019 in in order to announce the following issues to the shareholders and request their approval:

   1. The Annual Report, General Balance Sheet, Financial Statements and External Auditors Report corresponding to the period ending 31 December 2019.

   2. Final dividend distribution. In this regard, the Transelec S.A. Board of Directors agreed to propose distribution of amounts that had already been distributed as temporary dividends in 2019 as a final dividend corresponding to the 2019 fiscal year amounting to a total CLP 39,887,000,000.

   3. Dividend Policy. Due to a correction that needed to be incorporated into the current dividend policy, the Board of Directors recommended the shareholders in attendance at the shareholders meeting to approve the following: “Dividends

corresponding to up to 100% of the net profit reported by the Company shall be distributed, considering acquisitions and investment opportunities, the Company's financial standing, obligations taken on by the Company, commitments made by Transelec when it issued bonds any debt instruments, and considering impacts related to the implementation of IFRS. The Board of Directors shall determine the amount to be distributed as temporary dividends on a quarterly basis, in accordance with the conditions previously indicated."

4. Board of Directors election.

5. Board of Directors and Audit Committee salaries.

6. Appointment of External Auditors.

7. The newspaper to be used to announce shareholder meetings.

8. Agreements reached by the Board of Directors regarding issues contained in Articles 146 and following of the Corporations Law.

9. Other issues of interest for the corporation and for consideration by the Board of Directors.

4) In compliance with the provisions of Article 9 and the second paragraph of Stock Market Law Nº 18,045 Article 10 and the provisions of General Standard N° 30, the following was reported as a relevant fact 26 April 2019 that agreements were reached regarding the following issues at a Transelec S.A. shareholders meeting held that same date:

1. To approve the Annual Report, Balance Sheet, Financial Statements and External Auditors Report corresponding to the period ending 31 December 2018.

2. To approve distribution of amounts distributed as temporary dividends during the 2018 fiscal year as a final dividend corresponding to 2018 amounting to CLP 39,887,000,000.

3. To approve the dividends policy proposed by the Transelec Board of Directors.

4. It was agreed that the members of the Board of Directors were to be replaced and therefore the Board is now comprised as follows: Mrs. Brenda Eaton as director and Mr. Jordan Anderson as her respective deputy director, Mr. Rui Han as director and Mrs. Sihong Zhong as his respective deputy director; Mr. Richard Cacchione as director and Mr. Michael Rosenfeld as his respective deputy director; Mr. Alfredo Ergas Segal as director and Mr. Ricardo Szlejf as his respective deputy director; Mr. Mario Valcarce Durán as director and Mr. José Miguel Bambach Salvatore as his

respective deputy director; Mr. Blas Tomic Errázuriz as director and Mr. Patricio Reyes Infante as his respective deputy director; Mr. Alejandro Jadresic Marinovic as director and Mr. Juan Agustín Laso Salvatore as his respective deputy director; Mr. Juan Benabarre Benaiges as director and Mr. Roberto Munita Valdés as his respective deputy director; and Mrs. Patricia Núñez Figueroa as director and Mr. Claudio Campos Bierwirth as her respective deputy director.

5. Board of Directors and Audit Committee salaries were determined.

6. Approval of the appointment of the firm Deloitte as the corporation's external auditors for the 2019 fiscal year.

7. Approval of Diario Financiero as the newspaper to be used for publishing notices of shareholders meetings.

8. Agreements reached by the Board of Directors regarding matters contained in Corporations Law Article 146 and following articles were reported.

5) On 15 May 2019, in conformity with Article 9 and paragraph 2 of Stock Market Law N° 18,045 Article 10 and General Standard N° 30 issued by the Securities and Insurance Commission, presently the Commission for the Financial Market, it was reported as a relevant fact that Brenda Eaton was elected as Chairperson of the Board of Directors Transelec S.A. at a Board of Directors meeting held that same date.

6) In conformity with Newsletter N° 660 issued by the Insurance and Securities Commission, presently the Commission for the Financial Market, the following relevant fact was reported 19 June 2019 that at a Transelec Board of Directors meeting held that same date, the corporation agreed to distribute temporary dividends to be taken from the 2019 fiscal year amounting to CLP 32,875,000,000. The dividend was paid 18 July 2019 to shareholders registered in the respective shareholders' registry as of 11 July 2019. This was done in conformity with the provisions of the Dividends Policy approved by the corporation's Board of Directors and was reported at the shareholders meeting held in the month of April 2019.

7) In conformity with Newsletter N° 660 issued by the Insurance and Securities Commission, presently the Commission for the Financial Market, it was reported as a relevant fact 23 August that at the corporation's Board of Directors meeting held 22 August 2019, the corporation agreed to distribute temporary dividends to be taken from the 2019 fiscal year amounting to CLP $30,671,000,000, which was paid 25 September 2019 to shareholders registered in the respective shareholders' registry as of 16 September 2019. This was done in conformity with the provisions of the Dividends Policy approved by the corporation's Board of Directors and was reported at the shareholders meeting held in the month of April 2019.

Form N° 1 on the distribution of dividends was attached in accordance with the aforementioned Newsletter.

8) In conformity with Newsletter N° 660 issued by the Insurance and Securities Commission, presently the Commission for the Financial Market, it was reported as a relevant fact 14 November that at the corporation's Board of Directors meeting held 14 November 2019, the corporation agreed to distribute temporary dividends to be taken from the 2019 fiscal year amounting to CLP 32,672,000,000, which was paid 10 December 2019 to shareholders registered in the respective shareholders' registry as of 16 September 2019. This was done in conformity with the provisions of the Dividends Policy approved by the corporation's Board of Directors and was reported at the shareholders meeting held in the month of April 2019.

   Form N° 1 on the distribution of dividends was attached in accordance with the aforementioned Newsletter.

9) In conformity with Article 9 and paragraph 2 of Stock Market Law N° 18,045 Article 10 and General Standard N° 30 it was reported as a relevant fact 14 November 2019 that at Transelec S.A. Board of Directors meeting held that same date, that the Transelec S.A. Board of Directors acknowledged and accepted the resignation filed by Mr. Alfredo Ergas from his position as corporation director, as well as the resignation filed by his deputy director Mr. Ricardo Szlejf.
   In virtue of the foregoing, Mr. Scott Lawrence was appointed alternate director at the same Board of Directors meeting.
   Moreover, at the same Board of Directors meeting, Mrs. Brenda Eaton resigned from her position as President of the Corporation. Mr. Scott Lawrence was elected to be President.
