

Sustainability Policy

Sustainability is the essence that guides our company. It involves:

1. OUR PEOPLE

We protect the life of our associates and contractors.

We do not jeopardize safety for the sake of operational goals and commit to legal and regulatory compliance to prevent injuries and illnesses, guaranteeing safe working environments.

We foster active participation, eliminate hazards and promote constant leadership in health and safety, driving continuous improvement with the goal of zero accidents.

2. THE ENVIRONMENT

We prioritize environmental care with a preventive approach. We take care of our natural and social environment and promote an efficient use of natural resources in all of our activities.

We play an active role in connecting renewable energy sources to the National Electricity System and are permanently committed to the mitigation of and adaptation to climate change.

3. THE COMMUNITIES

We build relationships of trust, seeking mutual growth with all of our stakeholders and recognizing the richness of diversity in each of the territories where we are present, helping to improve the quality of life and stimulate local development.

4. INTEGRITY

We ensure compliance with the regulations governing all of our company's activities, committing to the highest ethical standards and aligned with our current legislation. We act with integrity and honor each of our voluntarily subscribed commitments, in line with our company values and principles.

5. COLLABORATION

We promote collaboration and alliances for the development and sustainable operation of the transmission system. We make sure that internal and external collaborators, as well as all of our stakeholders, can develop best practices to adequately comply with established obligations and the execution of work with the best possible standard.

6. QUALITY

At Transelec, we reaffirm our vocation of service to meet the needs of all of our clients, assuring the expectations and requirements agreed with each of them. To this end, we permanently innovate to continuously improve the quality of our work.

Compliance with this policy is the result of the motivation and commitment of our associates as well as an efficient and effective management system.
